MOTHER OF NINE SHOT, KILLED WHILE PRAYING

SOURIS, P.E.I., Nov. 9 (CP).—Police arrested a man here early today in connection with the death of Mrs. John MacKinnon, 41, shot last night while praying with two of her nine children.

His name is being withheld pending further investigation. A police dog has been called into the investigation to help "search for certain evidence."

Police believe the shot that killed Mrs. MacKinnon was fired from outside the house. The two children who were kneeling with their mother said they heard two shots.

Mrs. MacKinnon's husband died two years ago.

Police said there was no immediate motive for the murder.

Australia, N.Z. For Peace Plan

Truman Program Declared Genuine
Attempt To Heal East-West Split

PARIS, Nov. 9 (CP).—Australia and New Zealand today pledged warm support of the Truman plan for peace and disarmament, turned down in the United Nations Thursday by Russia's Andrei Vishinsky.

Anti-Peron Radicals Rioting

BUENOS AIRES, Argentina, Nov. 9 (UP).—At least 12 persons were injured and a number arrested when police used tear gas Thursday night to quell stone-throwing political demonstrators at an anti-Peron rally.

President Juan D. Peron, who is seeking re-election, warned Wednesday that opposition parties might try to overthrow his regime by force before or during Sunday's elections.

One of the biggest crowds of the election campaign to attend a rally of the anti-Peron radical party hurled stones at a mounted policeman and knocked him off his horse.

The demonstrators went into action immediately after a radical presidential candidate, Ricardo Balbin, completed a campaign address. Balbin, noticing unusual unrest among the crowd, had appealed against any show of violence.

Many shots and explosions were heard after the policeman was knocked off his horse. Police said they used tear gas when the crowd stampeded.

Among those arrested were several radical party members who had painted party slogans on street cars just as Peron's supporters have been doing for the past few weeks.

Highway Job Is Awarded

Dawson and Wade Ltd., Vancouver, today was awarded the contract by the provincial government for grading the second section of the new Patricia Bay highway.

The company's tender was \$233,853.

Work is expected to start soon on the five miles of construction. This will complete the grading part of the job.

Paving tenders for both sections will be called next spring.

Reds Stall Cease-Fire Parley Awaiting Orders; War Slows Down

PANMUNJOM, Korea, Nov. 9 (UP).—Communist truce negotiators stalled for time today, presumably awaiting orders whether to adopt Soviet Foreign Minister Andrei Vishinsky's demand for an Allied withdrawal to the 38th parallel.

Vishinsky's demand in the United Nations general assembly in Paris yesterday was not mentioned during today's meeting of the armistice subcommittee, but it threatened to wreck Allied truce hopes.

Communist negotiators had reluctantly abandoned their demand for a cease-fire line along the 38th parallel shortly after the truce talks were resumed two weeks ago. They now were seeking a firm agreement that the line be along the present battlefront, which runs up to 45 miles north of the parallel.

The U.N. and Communist subcommittee members called off their usual afternoon session today when nothing new developed during the morning meeting of two hours and 45 minutes. They agreed to meet at 11 a.m. tomorrow, however.

Brig. Gen. William Nuckolls, the delegation spokesman, said the Communists adopted "what might be termed an elusive attitude" during the morning.

"I got the impression, and so did the delegation, that today was a day of transition—a day of no decision, another day of stalling," Nuckolls said.

Delegates of the two Commonwealth countries decried the Russian foreign minister's action and urged the General Assembly to speed talks on the plan.

Australia's minister for external affairs, Richard Casey, fixed the blame for the present stage of world affairs on Russia. "Millions of humble people who are yearning for peace will be appalled," he said, "by Vishinsky's cynical levity."

(The Russian joked in the assembly Thursday that he could not sleep for laughing at the West's peace plan.)

GENUINE ATTEMPT
New Zealand's high commissioner in London, Fred W. Doidge, called the western plan "a genuine attempt to bridge the east-west split."

State Secretary Dean Acheson of the U.S. met Foreign Secretary Anthony Eden of Britain and Foreign Minister Robert Schuman of France again today before the session began, planning the next move after Russia's cold shoulder. As they spoke, U.S. Ambassador Philip C. Jessup, in a special press conference, challenged Russia to start disarmament talks in the U.N. now—not to wait until some time before June 1, 1952, as the Russians proposed Thursday. Jessup also accused the Russians of trying to by-pass the U.N. in asking a world-wide arms conference.

In the assembly today F. W. Doidge of New Zealand urged increased measures of collective security to give the free world strength to repel any future aggressions such as occurred in Korea.

He called on all U.N. members to "pull their weight in deeds as well as words" for an effective system of world-wide collective security.

Cuba's chief delegate, Dr. Aureliano Sanchez Arango, said his government supports all measures intended to repel aggression and added that Cuba wants "peace based on rights, liberty and justice."

The U.N. has drawn up a blueprint for such a security plan, embracing not only military but political, financial and economic phases.

Any hope the small countries had entertained that a lessening in east-west tension might come about in this session was shattered Thursday by the hard-hitting policy speeches of Russia's Andrei Vishinsky and State Secretary Dean Acheson of the U.S.

They amount to slightly less than of small-scale enemy probing attacks against hill positions west and northwest of Yonchon. Frost covered the ground and temperatures dropped to 24 degrees.

Gen. Matthew B. Ridgway, supreme U.N. commander, toured Korea from line positions in a light plane. He visited an observation post and observed Chinese Communist positions through binoculars.

Ridgway flew to Korea from his headquarters in Tokyo Thursday. He wore his familiar field uniform with a grenade dangling from his parachute harness.

"I am going to be back in Korea, where I can get some of the 'good front-line air,'" he said. "Like to visit the Eighth Army as often as I can."

EIGHTH ARMY HEADQUARTERS, Korea, Nov. 9 (UP).—American jet fighters shot down three Soviet-built MIG-15 jets and damaged two others today in the second straight day of blazing dogfights over northwest Korea.

All 52 U.S. jets returned safely from today's two air battles with 50 enemy jets.

On the ground, United Nations infantrymen on the freezing western front beat off a series

Stand On Guard In Egypt

British troops man an anti-tank gun, dug in to the axle, as they guard one of the roads leading from Egypt to the Suez Canal zone. Premier Winston Churchill has announced that Britain will continue to hold the canal, fighting for it if necessary. (NEA photo.)

Captain's Heroic Efforts Recounted By Survivors

PORT ANGELES, Nov. 9 (AP).—The master of the freighter George Walton gave the order to abandon his flaming ship, then—in the tradition of the sea—remained aboard until the last crew member was over the side.

The first survivor, were brought here by the Greek freighter Katherine which bucked towering North Pacific seas to rescue them hours after responding to the distress call.

One man was killed aboard the ship. Five others are missing and presumed drowned. The dead man was identified today as Gus M. Larsen, second assistant engineer, from Portland.

Reported Tax Share Boost Not Confirmed

A report that B.C. is to get a boost from Ottawa in the federal payment for rental of the income tax field was treated with reserve by the provincial government today.

Premier Johnson said he has not received notice from Ottawa of any "new offer" for the renewal of the tax agreement which expires next March 31, as reported in a Vancouver paper.

The report said B.C.'s annual rent payment would be raised from \$34,981,000, as projected for next year, to \$37,259,000 to "sweeten up" the terms for renewal of the agreement.

Officials here think the reported increase payment is merely brought about because the gross national product has increased.

Under the agreement when an increase is recorded in the gross national product, which broadly speaking means national income, the payments to the provinces are boosted.

This, provincial officials reason, is why the rental payments are reported to have increased. It is not being interpreted as a new offer.

The rental payments also are based on provincial population. Results of the census in B.C. may have considerable bearing on any new payments.

Since the postwar agreement was entered into in 1947, the amounts paid to B.C. have increased moderately each year. They amount to slightly less than

one-quarter of the entire provincial revenues.

Following are the amounts year by year, with total provincial revenues in brackets:

1947-48—\$20,354,240 (\$67,078,000).

1948-49—\$21,969,374 (\$92,001,000).

1949-50—\$24,519,000 (\$111,303,000).

1950-51—\$27,001,000 (120,000,000 estimated).

1951-52—\$30,331,000 (\$118,000,000 estimated expected to be much higher).

MILK PRICES
Vancouver—Island Dairyman's Association is considering a plan whereby the price they receive for milk would be tied to the cost of feeds.

Henry Robinson, secretary, said today the proposal is being studied, and already has been discussed with Agriculture Minister Harry Bowman.

The dairyman's official said oats have increased in price \$7 a ton in the last three weeks, dairy feed \$3 a ton, and alfalfa hay a considerable amount.

He said the plan to increase the price paid to producers (now \$5.90 per 100 pounds) as feed prices increase would give immediate relief.

Robinson pointed out that working out a new plan for operation of the Milk Board, as has been suggested, would take a long time, and by then more producers would have been forced out of business.

"What we need is immediate help," he stressed.

Meanwhile, the latest producer going out of business due to the generally shaky position of the industry is Springwood Farms, Mount Newton Crossroads. Officials could not be contacted this morning, but it was learned the herd is being sold and the business closed down very soon.

CBC TO CARRY CHURCHILL TALK

TORONTO, Nov. 9 (CP).—The CBC said today its trans-Canada network will carry a delayed broadcast of Prime Minister Churchill's speech at the Lord Mayor's annual dinner at the Guildhall in London. The broadcast will be heard at 6:30 tonight.

The decision allowing the B.C. Power Commission to dam Buttle Lake will be appealed. T. G. Norris, K.C., Vancouver counsel for a large group of conservationists, told the Times today.

"I have been instructed to take all steps necessary to protect Strathcona Park and Buttle Lake from destruction. I can't say what form the appeal will take," Norris said.

The lawyer said the question of water rights complicate E. H. Tredcroft having power to make any such decision is "in issue."

Norris said he has made an application to Tredcroft for a copy of the detailed reasons for his decision, and for copies of hydraulic studies, surveys, and examinations which the comptroller said have been carried out.

(Tredcroft has refused so far to release his reasons for the decision.)

Norris said Premier Byron Johnson's statement that the matter will be debated in the House does not make it clear whether the B.C. Power Commission will be prevented from going ahead with the project in the meantime.

Cairo Asks Holy War On British

SHIP CALLS URGENTLY FOR RESCUE

SAN FRANCISCO, Nov. 9 (AP).—The Japanese freighter Kinugasa Maru, with 42 men aboard, was reported in distress in the north Pacific early today.

The R.C.A. radio-marine station at Pt. Reyes, Calif., said it picked up an S.O.S. from the 4971-ton vessel saying she was in need of immediate rescue. The number three hold was reported flooding.

The Kinugasa was reported laden with iron ore. R.C.A. picked up the distress call at 6:15 a.m. (PST).

The ship is enroute from Naha, where she bunkered, to Yokohama.

Moslems Urged To Drive 'Invaders' From Egypt

CAIRO, Egypt, Nov. 9 (UP).—The government-controlled Cairo radio broadcast today an appeal by a Moslem priest for a holy war against the British in the Suez Canal zone.

The plea was made by Sheikh Mohamed Abu Sheddah, the Imam of Cairo's Al Hussein Mosque, as he led noon prayers on this Moslem Sabbath. The prayers were broadcast throughout Egypt.

He urged Moslems to launch a holy war against "the aggressive invaders" and told them not to fear the "enemy's ruthlessness."

The Imam said such a holy war against Britain should involve fighting by the able-bodied, assistance by others unable to fight themselves and non-co-operation by persons engaged in work for the British.

The Egyptian government, which recently scrapped its 1936 treaty with Britain and demanded that British troops leave the canal zone, earlier accused the British of "aggression" of Egyptian territory.

Terrorists Raid U.K. Trucks

United Press correspondent Peter Webb reported from British headquarters at Fayid in the canal zone that terrorists made their second armed attack in three days on British trucks.

Webb reported that terrorists firing from a civilian jeep wounded the driver of a British army post exchange truck but that he managed to flee with the vehicle.

In Ismailia British troops opened fire on an Egyptian truck that tried to crash a military road barrier and later arrested the driver, Webb added.

Egyptian police shut down all grocery shops in Ismailia after pamphlets were distributed threatening death to storekeepers selling goods to the British.

A bomb explosion destroyed the truck and damaged the home of an Egyptian contractor who has been supplying British troops in the canal zone.

A British military spokesman today denied Egypt's charge that British troops yesterday occupied Kassassine hospital, built to commemorate King Farouk's escape from death in a 1943 auto accident. The hospital, 30 miles outside the canal zone town of Ismailia, has never functioned owing to a lack of doctors.

CIO Returns Murray As President

NEW YORK, Nov. 9 (UP).—Philip Murray was re-elected today to his 12th consecutive term as president of the C.I.O. after wildly shouting delegates to the C.I.O.'s 13th annual convention demonstrated for 20 minutes in his honor.

Murray was nominated by President Jacob S. Potofsky of the Amalgamated Clothing Workers, who called him "not only a labor leader, but a leader of mankind."

Murray's re-election came shortly after the convention passed a resolution attacking the A.F.L. for "breaking up" the united labor policy committee and killing the idea of labor unity acceptable to the C.I.O.

It said the A.F.L. action was "irresponsible and disruptive." The united labor policy committee had been considered the most dramatic example of renewed labor friendship since John L. Lewis took the C.I.O. out of the A.F.L. in 1936.

Murray, soft-spoken 65-year-old Scot, had proposed unity talks a year and a half ago and the U.L.P.C. was formed last December.

But the resolution said the "sudden destruction" of the joint policy committee had "created a climate in which serious discussion of unity is difficult."

Murray left no doubt that the C.I.O. would ignore an invitation from the A.F.L. last month to new talks on merging the big labor federations.

The silvery-haired Murray opened the convention Monday with a charge that the A.F.L. was trying to "absorb and swallow" the C.I.O. instead of seeking a working alliance and ultimate merger.

Game Official Scores Plunder

NANAIMO, Nov. 9 (CP).—Criticism of "trigger happy" hunters who leave dead does and fawns in Vancouver Island woods was heard at a meeting of the Nanaimo Fish and Game Association.

Vince Senini told members of the association Thursday night that he saw nine dead does in the Copper Canyon area, near Chumash, less than two weeks after the deer season opened. He said such hunters are more dangerous to game conservation than wolves and cougars.

LOS ANGELES PAPER JUMPS SUNDAY PRICE

LOS ANGELES, Nov. 9 (UP).—The Los Angeles Times announced today it will increase the price of single copies of its Sunday edition from 15 to 20 cents beginning Nov. 18.

In a front-page announcement, the newspaper said the increase was necessary "because of the continually rising costs of newspaper publication and distribution."

The new price will have no effect on the current home delivered subscription rate of \$2.25 monthly for all-day and Sunday issues, the paper said.

The Times recently joined the other four major Los Angeles metropolitan dailies in increasing the price of their daily editions from 7 to 10 cents.

Protests 'Total Seizure'

CAIRO, Egypt, Nov. 9 (CP).—Egypt protested formally to Britain today that an "uninterrupted influx" of British troops into Egypt constitutes "an almost total seizure of the Suez canal."

The note, handed by the foreign ministry to the British embassy, also accused Britain of other infringements of Egyptian sovereignty which "recall acts of Nazi authorities during the Second World War."

It referred to previous protests against British actions in the disputed canal area, saying such acts could "only encourage and intensify the spontaneous movement of resistance of the Egyptian people."

Egypt has scrapped her 1936 treaty with Britain and ordered Britons out of the canal zone and the Sudan. The Briton refused to go and posted reinforcements into the canal zone. The Egyptians also cold-shouldered a western bid to become a part of a Middle East anti-Communist defense command.

Officials of the American-owned Socony Vacuum bulk storage plant told the British authorities earlier they could no longer sell them fuel oil for military use.

They explained that Egyptian workers would force the plant to shut down if such deliveries were made.

The plant was closed temporarily Thursday when four British tank cars appeared to take on oil. The Egyptians walked off the job and did not return until the cars were withdrawn.

Socony has supplied British forces with oil through an arrangement with Shell Oil Company, which refines oil that Socony produces in Egypt.

Princess, Philip Near End Of Strenuous Tour

CHARLOTTETOWN, Nov. 9 (CP).—Prince Edward Islanders are proud of their Confederation role, their longevity, their silver foxes and Anne of Green Gables. And they worked all four into warm-hearted Royal visit welcoming ceremonies here today.

The Royal couple boarded the cruiser Ontario tonight for Sydney, N.S., then on to St. John's, Nfld., where they complete their 15,000-mile North American tour. Next week they'll be home in England.

Bright sunshine, blotted from time to time with woolly clouds scudding across the blue sky, greeted Princess Elizabeth and the Duke of Edinburgh as they were cheered through the streets by a crowd estimated to have swelled the 15,000 population of the city at least three times. The procession route was lined with a shoulder-to-shoulder string of flag-waving school children.

The Confederation chamber where the builders of Canada held their preliminary meetings was the scene of the province's first official welcome. The Princess spoke from the balcony of this historic building and drew attention to its significance.

MEETS CENTENARIAN
On her way into the building she chatted with Robert Furness, 100-year-old native of nearby Vernon Bridge. He told Elizabeth he had been fishing yesterday and had done a bit of gardening before coming to the ceremonies.

"How interesting at your age," she said.

The Royal couple signed off the last page of the old register which had been started by the King in 1939, and signed the first names on a new register which is left in the Confederation room.

Premier J. Walter Jones presented Princess Elizabeth with a cheque for \$1,000 to be applied to any charity of her choice and also gave her a platinum fox cape from the island which, he said, was "the alma mater of the fox industry."

The Princess wore a brown silk dress under her long mink coat. She also wore a brown hat. The Duke was in naval uniform.

En route to Government House for a private luncheon with Lieutenant-Governor T. W. L. Prowse, the motorcade slowed so that the Royal pair could exchange greetings with some children polio patients at the hospital.

**ONTARIO DUE
AT ESQUIMALT
BASE DEC. 13**
The cruiser Ontario will say Canada's last "good-bye" to their Royal Highnesses Princess Elizabeth and Prince Philip... and will then steam for Esquimalt.

Word from the navy of the ship's intentions came today.

She embarks the Royal visitors at Sydney, N.S., this afternoon, carries them to St. John's, Newfoundland.

There, Prince and Princess join the Empress of Scotland for their return journey to England. For a part of the way, H.M.C.S. Ontario will accompany the Empress, parting company in mid-Atlantic.

Commanded by Capt. E. P. Tisdall, R.C.N., Ontario will steam directly to her home base at Esquimalt, arriving Dec. 13.

ON THE TIMES

By ART STOTT

The wild currant at the end of the border paints its own pictures of the seasons—vivid in spring, pleasantly cool in summer, and now, warmly bright with the changing leaf of autumn.

First of the year's flowering bushes, it pushed the nubs of new growth from its varnished stems as the blossom clusters raced to pass the burgeoning of fresh foliage. Quick to answer the pulse of the year's awakening, it broke out its banners of small red bloom in swelling bunches. To it came the hummingbirds, returning from the south, and with them the first lazy bees.

Stott

Through the summer it seemed to drowse, scarce moving its deepening green leaves as small birds loitered there, picking at the bunches of forming currants.

Now, in autumn, it seems to live again, gay in Jacob's coat. To it have come the delicate yellows of the season, blushing to soft pinks and strengthening to bright reds. Now, too, it knows its visiting swarms of birds, small creatures resting a while on the long flight south, and anxious robins, flocking for migration.

Its leaves twist and turn, rustle dryly, and break away for their final dance. Soon its slender branches will stand alone in delicate tracery against November's greys, fine etchings stripped of their color splashes, waiting again for the pulse of spring and the explosive burst of new life.

'Let's Go To Alaska'

Herb Shade recalls Mrs. Victoria P. Roberts as a young girl in Victoria prior to her Alaskan odyssey. His impressions of her then have been strengthened by a continuing friendship and give him particular interest in Mrs. Roberts' book "Let's Go To Alaska," published this year by the Wetzel Publishing Co., Inc., in Los Angeles.

Without literary pretensions, the slim volume has particular interest for people of this part of the continent, not merely because it is written by a Victoria woman, but because it provides an interesting and historical insight into the territory—probably soon to be a state—which is our neighbor.

The book is written in a form to appeal to children. In it incidents are related and country described simply by a fictitious uncle who has come from "Inside" to visit his nephews and nieces in the continental United States. He tells his stories around the family hearth before the small fry are chased off to bed.

It has the merits of simplicity. Never is the picture overdrawn. The towns and settlements are inhabited by people, not outlandish characters, and if their pioneering was heroic, the heroism is not made spectacular or sensational.

Approximately 130 actual photographs picture settlements, wild life, flowers, scenery, including the well-known glaciers, and a dozen other interesting subjects.

Mrs. Roberts, who went "in" back in 1904 and who has mushed over the snow trails of the frontier, has done a job for Alaska. Her readers will find the hour or two they spend on the volume an engaging means of adding to their knowledge of one of the last frontiers.

Literary Roost

Add to the list of authors living here and finding a market for their writings the name of Maurice Corbett, whose three-act mystery comedy "Woman Called 'X'" has recently been published by Eldridge Publishing Company, of Franklin, Ohio, and Denver, Colorado. The work follows publication of several other short plays by Mr. Corbett, who, like some of our other writers, manages to keep his accomplishments out of the local limelight.

In addition to our well-identified "name" writers, we appear to be attracting a growing proportion of those who win appreciation beyond our town or island while apparently preferring a degree of anonymity here. Maybe we're not ready to claim the region as a "nest of singing birds," but we're not doing so badly as a literary roost.

Tree Sale For Funds

Victoria Optimist Club will hold its annual sale of Christmas trees to raise funds from a lot at 325 Cook Street. President Stanley James announces that Harold P. Gray had offered to provide the lot free of charge and wire it for lighting.

Records Fall As Public Raids Library Shelves

Victoria Public Library is back "in town" and the figures show it. First week's operation in the new addition and renovated old section at Yates and Blanshard saw new records broken, right and left with approximately 10,000 books lent.

Registration of adults in the first week was 400 per cent more than in ordinary weeks—at the temporary location at Fort and Quadra Streets. Children, too, played their part in the new activity with 703 children's books taken out last Saturday alone.

"Although much of the rush was due to opening new library building, we feel increased use will continue showing the value of a downtown location," said one librarian.

Since the opening, 303 children have registered, and 1,127 adults. Children's department will celebrate Young Canada's Book Week which starts officially Nov. 11.

The library will be closed on Monday, Armistice Day.

Periodic rounds of all schools in Victoria are made by Miss Hazel King, children's librarian, to tell the children about books available.

POWERED FOR THE JOB
Four great engines! The 92-h.p. Thriftmaster, the big 105-h.p. Loadmaster, the massive 114-h.p. Torquemaster and the mighty 120-h.p. engine all deliver outstanding performance with remarkably low fuel and maintenance expense.

VALVE-IN-HEAD DESIGN
For 39 years, Chevrolet has built valve-in-head engines. No other manufacturer has built so many, just as no other truck engine design can match the overall economy and proved efficiency of Chevrolet's valve-in-head.

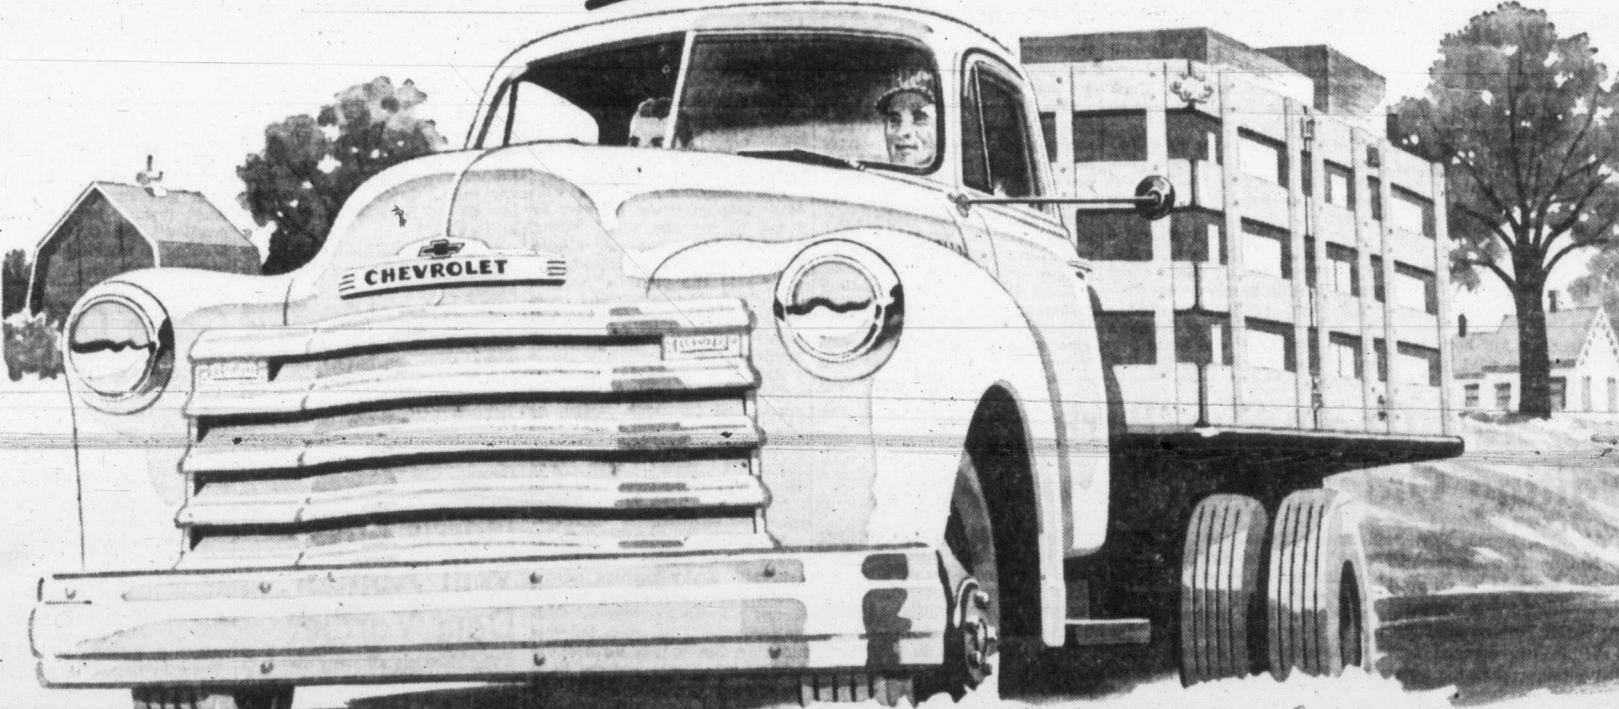

BLUE-FLAME COMBUSTION
Wrings all the usable energy from every drop of gasoline. Blue flame combustion is possible only with valve-in-head engine design—provides greater power and livelier performance, through more efficient utilization of fuel.

POWER-JET CARBURETOR
At low speed, on grades or at regular highway speeds, Chevrolet's Power-Jet carburetor maintains the proper fuel mixture for the engine. This, plus fast warm-up, smooth, quick response, means surprisingly low operating costs.

LONG LASTING BRAKES
The greater self-energization of Chevrolet hydraulic brakes provides smoother, safer braking—completely equalized pressure to each brake. This in turn assures full lining contact and longer wear—for the brakes on your truck.

BONDED BRAKE LININGS
No rivets! On light- and medium-duty models, the lining is bonded directly to brake shoes to increase life and to eliminate danger of scoring brake drums on lining wears. You get extra wear—safer brakes.

greater economy
engineered in!
... to do more work for your money

Just take a look at the engineered-in economy features of Chevrolet trucks. Features like valve-in-head engine design, Blue-Flame combustion, Power-Jet carburetor, long lasting brakes and a host of others. All the vast engineering and manufacturing experience of Canada's largest truck builder is used to give you greater economy on the job.

And Chevrolet economy goes far beyond low

operating costs. It means engines, chassis and cabs will stand up under rough, tough use month after month, year after year. It means building extra ruggedness and extra efficiency into Chevrolet trucks at lowest cost.

Every day, more and more truck users are switching to new Chevrolet trucks. Take a tip from these truck-wise buyers and get real economy and more work for your money.

Mr. Johnson's Assurance

THE STRATHCONA PARK ISSUE has been greatly clarified by Premier Johnson's promise, to submit it to the legislature. The legislature having established the park by statute, it alone, as Mr. Johnson implies, is entitled to allow the damming of Buttle Lake within the park limits.

Properly at this time Mr. Johnson says no more than that. He cannot say more when the ruling of the water controller, authorizing the dam, is subject to appeal to the cabinet. The issue for the moment is sub judice so far as the cabinet is concerned.

If the cabinet decides, as it undoubtedly will, that the lake must be dammed, whatever the cost to the park, it will be bound to give its reasons to the legislature. This Mr. Johnson evidently will be prepared to do.

It was never argued here that Buttle Lake should not be dammed under any condition. It was never denied that Vancouver Island, which has few undeveloped hydro sources, faces a sudden need for more electricity to serve its new industries and population. It was argued only that every possible alternative to the use of Buttle Lake should be fully explored, that Upper Campbell Lake

might provide that alternative outside the park and that the legislature itself should make the final decision.

On the last point, the only point which he could properly discuss now, Mr. Johnson's latest statement is quite clear. The legislature will decide. But it will be for Mr. Johnson to convince the legislature, if he is so convinced himself, that there is no practical alternative to Buttle Lake, that the damming of Upper Campbell would be too costly or too difficult. Complete proof will be demanded by the legislature and the public.

Finally, if Buttle Lake is to be dammed the legislature and public will require the proof that the resulting damage to the park will be kept to a minimum. The able water controller has this in mind when he insists that the flooded lake margin must be logged in advance, that the new water level must not be suddenly dropped during the summer holiday season, that camping sites must be provided and the lake constantly stocked with game fish.

With these precautions will the park retain its attraction as a resort for British Columbians and visitors? The public will expect to hear from Mr. Johnson on this point also.

The Axe Falls

IT IS IRONIC AS IT IS INEVITABLE that Mr. Churchill, the life-long free trader, should restrict Britain's trade more drastically even than the Labor government. At the moment, the new government probably has no alternative to its curtailment of imports from the dollar area, including Canada. Since Britain is dangerously short of gold and dollars it must conserve its remaining reserves.

The government's new import restrictions are the answer to those Canadians who have been saying for the last several years that Canada's great trading opportunity lay in Britain and not in the United States. The Canadian government foresaw the present situation long ago and did everything possible to build up the American market to replace the expected losses in Britain. That policy has succeeded so well that Canada, despite the collapse of the British market, is now exporting more than ever and as a result many of these exports and the imports which are thus made possible, is enjoying an unexampled boom.

Nevertheless, the concentration of our trade in the United States is unsatisfactory as a long-run condition. Canada needs the British market. It is desirable for many kinds of products, essential to some like wheat. But the losses in that market during the post-war years and now the added losses of Mr. Churchill's new austerity policy are not the fault of the Canadian government. They result purely from British policy and Britain's poverty.

It is argued that if Canada imported more British goods Britain could buy more of ours. This, of course, is true but does not touch the core of the problem.

Canada enforces against British goods no restrictions which do not apply to the goods of the United States and other countries in the Geneva Agreements. On the contrary, British goods are given the

advantage of the lower tariffs of the British Preference system. Why, then, are more British goods not sold in Canada?

The reason, in the first place, is that Britain cannot offer us most of the goods which we import from the United States and which we need to fuel our industries. Britain cannot sell us coal when it is importing coal for its own use. It has no steel, copper, other metals or oil for export.

In the second place, the goods which Britain has for export must meet the competition of similar goods from the United States or elsewhere, in quality and price. If we restrict competitive American imports and pay a higher price for British goods then we must raise the cost of producing and consuming goods in Canada. We must raise the cost of living and sharply increase the pressure of inflation.

Even if we could afford to pay this price another and more serious reason would follow. Once we discriminate against American goods we must expect immediate retaliation against ours. And any serious curtailment of our exports to the United States would devastate the Canadian economy.

Britain's problem, therefore, is to produce for the dollar markets of the world goods which can compete with our own and with those of the United States. Until it can do this it will remain short of dollars, will restrict imports from America and will be impoverished as a result.

Britain must solve that problem for itself but it will need more aid from the United States and Canada in the meantime. This aid should be given. If Canada can afford some measure of aid it cannot afford to undermine its economy. Increase its cost of living and involve itself in a tariff war with the United States by attempting to shut out cheap American goods and import dear goods from Britain or anywhere else.

Who Offers Peace?

THE WORLD DISARMAMENT PLAN proposed by the United States, Britain and France represents a noble ideal. As Mr. Truman says, the human family would achieve unequalled prosperity if it could divert into useful goods the huge quantities of materials and energy now going into weapons. If we could be sure of peace we could enter a golden age. But disarmament at the moment is not practical politics. It will be impossible until the basic policy of Russia changes.

That does not mean, however, that the announcement of a disarmament plan at this stage is waste motion. The free world offers disarmament not only as a remote ideal but as an immediate bargaining point in the power struggle with Russia.

This year Russia launched a peace offensive and undoubtedly has convinced millions of ignorant and desperate people all over the world that it alone desires peace. The western nations, all their energies concentrated on rearmament, allowed Russia to take the initiative in this false appeal, allowed themselves to be called war mongers without an answer which a large part of the

world could understand. The disarmament offer now made is the delayed answer.

That offer can be called merely a propaganda gesture, a counter peace offensive as no doubt it is. Yet it is something more. The western allies propose not some vague generality but a specific plan. They propose to disarm by agreed stages and they offer to submit all their armaments, including atomic weapons, to international inspection. Without that inspection of course, no nation can afford to disarm since it would never know what weapons another nation was building in secret. Inspection by a world authority is the first essential of any real disarmament and it is Russia's refusal so far to accept inspection which has aborted every disarmament plan since the last war.

We need not expect the present government of Russia to accept inspection immediately, if ever. But no longer can Russia hope to convince the doubtful peoples that it alone desires peace when the west has offered real disarmament enforced by international authority—has offered, in fact, to reveal all its military secrets if Russia will do the same.

Slapped On The Wrist

ONE OF THE MORE ENERVATING aspects of the House of Commons is the regularity with which old bromides are dragged forth and presented to the members as bright, new, and original ideas. Every session sees some of these outworn and discredited theories offered on the market, spurned by all but the most glib, and returned to the dusty shelves for future discovery.

In such a category comes the proposal of Mr. Howard Green, one of Mr. Drew's strongest party supporters, in the House the other day. He brought out the old plan of a Commonwealth bloc, functioning as one entity in international affairs and speaking with one voice based on binding agreements. The issue was discussed in these columns at that time.

The strength of the Commonwealth lies in the looseness of its links and the independence of its members; binding commitments which couldn't possibly suit the varied needs of the component parts would quickly result in a complete breakdown of co-operation. The practical difficulties of operation might con-

ceivably destroy for all time a union, based on intangible qualities, which today is one of the world's strongest forces for international peace.

These are facts known, consciously or unconsciously, to most Canadians. They provide the background which has given purpose and direction to Canada's foreign policies for the past half-century.

Mr. Green's suggestion is thus a throw-back to earlier proposals made in a much more circumscribed environment, an anachronism which has no place in practical discussions of this era. And it is encouraging to note that no less stalwart a Tory journal than The Montreal Gazette has been quick to repudiate the proposal and point out the inherent flaws which make it impracticable and unwanted.

It was Mr. Pearson, the minister of external affairs, not Mr. Green, who received the Montreal newspaper's applause, for refuting the Conservative member's arguments—an editorial slap under which Mr. Drew no doubt also tingled.

LOOSE ENDS

You Can't Escape

By BRUCE HUTCHISON

THE newspapers report, as a mere joke, the fact that some inventor in the United States has made a fortune selling false television aerials which are erected by people who cannot afford to own television sets but want to see their neighbors to think they do.

Hutchison out the set itself, but it is more than absurd, it is pathetic and it is profound. It tells us more about the dilemma of civilization on this continent than any economist's chart, government report or sociologist's study.

JUST consider the mentality of the man who must seem to own something which he does not own. Just consider the American citizen returning at night to his home and observing the false aerial on his roof and then the living room without a television set. Perhaps he does not think much about it and is satisfied if he has fooled the neighbors but the fact is that he has fooled himself by accepting a bogus standard of values. He has accepted the basic delusion which, if carried far enough, could destroy the present system of society in North America.

THAT delusion, of course, is that human worth can be measured by property, even by such worthless property as a television set; that human happiness can be secured by material possessions; that the important thing is not what is inside a man but what is inside his house.

This delusion strikes straight at the original basis of American civilization, which holds that all men are born free and equal, with certain inalienable rights of life, liberty and the pursuit of happiness. For the man who pretends to own a television set or anything else which he does not own assuredly has reduced life to a mean pretense, he has used liberty to create deception and his private happiness consists in a pitiful public lie.

Such men, you may say, are too few to matter. If these tendencies were confined to false television aerials perhaps they would not matter, except to the psychiatrist. In fact the false aerial is only one small aspect of the general delusion that a society can long survive if based only on a rage for gain.

WE SAY that the desire for reward is the dynamism of the North American system and has made it the richest part of the world, that the lack of this incentive has kept many other places poor. This is true, so far as it goes, but it doesn't go very far.

What we are discovering in the present world revolution is that a society includes much more than physical goods and that any society which confines itself to them does not offer enough to satisfy the members of that society or to make foreigners imitate it.

A false television set may satisfy its owner. It is not a beacon to inspire the outside world. It does not suggest a happy home. It suggests an empty home. It does not suggest a happy man but an empty man. The foreigner looks at the aerial and asks what is back of it.

THAT is precisely the question which the whole outside world asks of North America today and so far has not received a convincing answer. A convincing answer could be given since most of the worthless aerial that the foreigner is likely to see.

The aerials of themselves would be harmless enough, since no doubt the owners will presently attach television sets to them. If it were not for the larger fact that even the television sets, in full operation, will themselves be essentially a false, an empty echo of reality. That is the basic mistake of the North American, far more serious than any Russian menace without the menace, I mean, of man's growing detachment from real things.

A MAN goes to the movies, let us say, and sees all life presented in complete distortion, hopped up, jazzed, and glamorized. Beside that his own life, a much better thing, appears humdrum, narrow and worthless. He sees some shapely actress on the screen, he comes home to his own wife, takes one look at her and wishes he had the courage to leave on the next train.

Miss Rita Hayworth and the others begin to look like the norm and the normal woman looks abnormal. The home becomes so oppressive that it must be escaped by turning on a television show. Escape, indeed, is becoming the drive of our society—the desperate attempt to escape from the thing we have created with two centuries of labor and which we now recommend so highly to foreigners.

FORTUNATELY, there is no escape either by a television set, a false aerial or by the poor myth of glamour (a hideous caricature of that word) which Hollywood has created. No escape from the daily grind, the empty house, the normal human life. No lasting disguise even with a false television set. The society we have built we must live in and the real test of the North American civilization, you might say, is our ability to take down the aerial and appear, to foreigners and to ourselves, for what we really are. Then perhaps we shall look much better than the caricature and false face we are presently wearing.

Something Done

The biggest change, both financial and social—and psychological—has come about because the "reactionary" West has helped the little people of Japan in a manner which the Communists, as yet, only shout about. The Japanese farmers are not being promised land of their own; they have already received it. It is something the West should tell the Asians about.

Soviet White Paper On Korea

Under Our Roof

By JOHN RHODES STURDY

FROM the window of the aircraft my wife looked down and said: "The house is still there, dear."

I relaxed slightly. Ever since we have been away on a short trip I had been wondering about our guests in the house—Hamish and Col. S. Skeffington-Smuts (Ret.) and Anastasia Wigglesworths (Ret.) and Little Augie. It was a surprise and a relief to find the house still there. As a matter of fact, it was a surprise to find the island there.

When the plane landed we took a taxi out to the house, and at the gate we were confronted by an enormous sign: "Trespassers will be shot. This means YOU. Signed, S. Skeffington-Smuts, Colonel, 12th Lancers, Retired."

"This is as far as I go," said the taxi-driver. "Now, listen," I said, "just ignore that sign. This is my house."

"I don't care whose house it is," said the taxi-man. "I carry a lot of tools in this car, but a mine-detector isn't one of them."

"You mean, the road inside the gate is mined?" "Ever since Hallowe'en," said the driver. "It seems some kids came up this way shooting off fire-crackers and the Colonel fellow thought he was being invaded. The place has been like an armed camp ever since."

Well, we couldn't persuade the driver to let his wheels beyond the gate, and so we got out and let the car go. I and then my wife said: "Look at this," and showed me another, much smaller sign a few feet from the gate at the edge of the woods.

"Past!" the sign read. "Customers please follow this trail. Signed, Little Augie."

Well, that was something, so we took the narrow trail through the woods and eventually arrived at the house. It was almost dark now and there were no lights showing in the residence that we used to call home. On the door there was a notice tacked up, and with the aid of a couple of matches I was able to read it.

"Order of the Day, 1530 hours. Route March with full equipment. 2200 hours. Return to base. By order, S. Skeffington-Smuts, officer commanding."

"That means they're all away," my wife said. "We can get into the house." "No, sir," I said. "From the general look of things around here, if these troops return and find strangers in the house, they'll shoot first and ask questions later. We'd better go over to the shed. After all, it's been our home for so long now that I'm almost used to it."

That was true because we had been living in the shed since our guests arrived and there was no room for us in the house. So we entered the dark building and sat on a camp cot, afraid to light a lamp until we were identified by the returning troops as friends.

Our small son was with us, and suddenly I said: "Stop kissing me so much. After all, I'm only your father." A surprised voice answered. "I'm not kissing you, daddy."

"Well!" I exclaimed. "You're certainly affectionate tonight," I said to my wife.

"What are you talking about?" she demanded. "Those kisses."

"What kisses?" "Oh, honey, don't be coy," I said, and put out my hand. I touched a beard. For a moment I was puzzled. Then it suddenly occurred to me that my wife was clean-shaven.

I screamed. Grabbing blindly at my wife and child I pushed them out of the shed and followed at their heels. Suddenly flashlights stabbed through the dark from the roadway. "Halt!" I heard a voice shout, and I yelled: "Don't shoot, Colonel! It's only us!"

In a moment we were surrounded by the Colonel, Hamish, Anastasia and Little Augie, all wearing battle equipment. I kept blubbering something about the shed until suddenly Hamish said: "Oh—the shed! Why, that's Little Augie's goat. You shouldn't have disturbed her. She probably thinks it's milking time."

Things seemed a little dazed from then on. I must say that our guests were rather decent to my wife and child. They set up camp cots for them in the utility room.

As for me—I'm living in Hamish's pup tent.

Torch Commando

Calgary Albertan

South Africa's Nationalist government is something of an embarrassment to its sister commonwealth countries. It is openly semi-fascist in nature, exploiting color and racial barriers and showing little regard for constitutional and democratic rights of its citizens.

The most active opposition to that program is coming from a group of war veterans, now numbering 100,000 in 200 separate branches. Its program includes such items as preservation of the rule of law, elimination of all forms of total-

itarianism, promotion of racial harmony, upholding the letter and spirit of the constitution.

The movement, known as Torch Commando, has captured public imagination and has support far beyond its membership.

Prime Minister D. F. Malan says Torch Commando is Communist inspired and that he might have to take measures to suppress it. That, of course, is sure proof of his own fascist inclinations.

The Thrill That Comes Once in a Lifetime

BY H. T. WEBSTER

The Shepherd

FRIENDLINESS

"With loving kindness have I drawn thee."

—Jer. 31:3.

He's new on the job, first day at work. . . . And you're the boss or his fellow clerk. . . . Go with him to lunch, do something kind. . . . To help him adjust, assist him to find. . . . His way around, show him the ropes. . . . Boost his morale and raise his hopes. . . . Not only is this the thing to do. . . . But he will always be grateful to you. . . . You win a friend and he won't forget. . . . That first bit of kindness that he met. —Julien C. Hyer.

Quick To Reply

May I use some of your valuable space to express my disgust at the letter printed in your Nov. 6 issue from Adrian Percival Barnstead relative to the Royal Visit?

This letter must be very sickening to all Canadians and especially to those of us born in England. It is hard to comprehend the attitude of a visitor who has the gall to make such adverse and unwarranted criticism of the country acting as his host.

Barnstead's criticism of the Canadian accent is particularly ill-founded in that firstly, it is definitely Canadian and not "aped after the American" since we have little of the southern drawls and other such purely American brogues; secondly, it is 100 per cent more comprehensible than the Lancashire, Geordie, Cockney and Somerset accents, to mention but a few of those spoken in the British Isles which are all but unintelligible to any but those who have such accents as their vernacular. I, as an Englishman, have certainly never had any trouble understanding good Canadian speech.

As to the desirability of Canada remaining English, the way of life and culture desirable for Canada is not American, English or that of any other foreign land. It is first, last and always Canadian.

In so far as children being kept in the background "and rightly so"—is concerned, I can only conclude that Mr. Barnstead was a clever child himself and furthermore he knows more about Princess Elizabeth's desires than does Her Royal Highness herself.

In conclusion, may I remind Mr. Barnstead and any other visitors who are dissatisfied with our country that there are many eastbound ships and aircraft leaving it daily.

KENNETH HICKFORD,
804 Craigflower Road.

That letter you printed over the signature of Adrian Percival Barnstead is a gag. Someone is doing a gentle leg pull. Surely this type of Englishman, who in past years earned us such worldwide dislike by an offensive and ill-mannered attitude of silly superiority when visiting other countries, is extinct. This Englishman isn't fooled—there's no such animal as Adrian Percival Barnstead.

A. T. RAINEY,
1997 Rockland Avenue.

Dear old boy Adrian Percival. As a critic he's really unmerciful. We thought that breed dead. But up pops Barnstead. With his humor appallingly terse-ful. "ABDUL THE BULBUL D'AMEER." Sidney, B.C.

Whoops! Percy of Duncan ought to be ashamed of himself. Why stay in Canada if you don't like the Canadians and their accent. We are satisfied with our accent and you cannot name a better country. I do hope you are not like Aunt Minnie who came to this country ten years ago on a visit and is still living here.

We have no intention of "keeping Canada English"—we are a separate country and have our own ideas of what we want, and we will strive toward that end.

It is very peculiar to many Victorians that Princess Elizabeth made special reference to the fact that she wished to see the children of Canada, and then have you write such a ridiculous letter. We do not care how you act in the Old Country and if it's a case of putting your spats on again and returning to the Old Country, all we can say is good riddance.

There are any number of boats sailing for the Old Country, but don't forget to take your "luggage."

CANADIAN.
Duncan, B.C.

Oh Percival! Your inference that we Canadians wish to keep Canada English is using your visitor's privilege to the extreme.

You forget to mention we Canadians fought in two world conflicts side by side with our English kin to preserve a world in which a Princess and her consort might travel freely—and we want, and shall have, our children in the front row to see them.

We hope you have a pleasant visit, but please don't hurry back. A little of your attitude goes an awfully long way.

A VETERAN.
Victoria, B.C.

Ups And Downs

By BRIAN TORIN

"I SEE," said the Elevator Man, "where a writer has decided that the most typical native American dish is not pumpkin pie or hot dogs or food like that but an old reliable standby—ketchup. He says the real addicts use it on everything, even ice cream, with the result that everything they eat must taste the same. Just like wearing red glasses would give you eyes the impression everything is red, so the tongue experiences everything through a thick goo of tomatoey-tasting stuff. It must narrow down the enjoyment of life a lot. But that seems to be the way they like it. Lower main!"

"They aren't," said the Elevator Man, "the only ones to use that principle. A lot of people restrict their living to a single 'taste.' Their diamond has only one facet, their traffic uses only one street, they interpret everything through only one phase of their character. One fella, for instance, judges everything in life by how it affects his ego. If it builds him up, he finds that thing good, regardless of its real merits. If it hurts his sense of self-importance, then it's bad. He has only one criterion for all of life's incidents. He smothers everything in the thick ketchup of selfishness. Going down!"

"After," said the Elevator Man, "you've been doing that for a while, it becomes a habit. You get so used to making things seem the way you want them to, rather than what they really are, that you never notice the changes you're making. You just go ahead automatically like that sergeant in the army. Says the colonel, 'Hang it all, what's the idea of parading all the big men in front of the little men?' And the lieutenant answered, 'It's the sergeant's idea, sir. He used to run a fruit stand.'"

Canadian Gift Of \$10,000,000 Worth Of Wheat To Go To India

OTTAWA, Nov. 8 (CP).—Canada has decided to give hunger-torn India a gift of \$10,000,000 worth of top-quality wheat to be shipped as soon as Canada's transportation crisis eases.

The only stipulation, it was learned, is that India, in selling the wheat to dealers, will use the money in some economic project which will help build up the country.

Earlier, this year Canada offered as a gift some of last fall's frost-damaged wheat but India said she would prefer to wait until Canada could give top-quality grain.

Funds to cover the gift will come from Canada's \$25,000,000 contribution to the six-year Commonwealth program to help strengthen south and southeast Asia against the threat of Communist aggression.

India's share of the \$25,000,000 will be \$15,000,000. The other \$10,000,000 will go to Pakistan for projects to be worked out soon.

The other \$5,000,000 of Canada's contribution to India will likely be used to build irrigation and power projects, send technicians to Canada for training, develop transport facilities and buy agricultural and building materials.

Earlier, N. K. Cavell, Canada's Colombo-plan administrator, announced that Russia, through

BRITAIN MAKES LOAN PAYMENTS REGULARLY

OTTAWA, Nov. 9 (BUP).—Finance Minister D.C. Abbott told the Commons the United Kingdom had paid back \$470,200,000 of its 1942 Canadian loan of \$700,000,000 and was making regular payments today.

Abbott made the statement asking the House to approve another three-year extension of interest-free provisions of the loan agreement. Debate on the motion was set over until next week.

"Net repayments on the loan have, to date, totaled \$470,200,000," Abbott said. "The outstanding principal amount of the loan has been consequently reduced to \$229,800,000 as at Oct. 25."

fantastic lies, is "licking the pants off us" in the cold war. The 57-year-old Toronto industrialist spoke to the Canadian Club of Ottawa and appealed for greater support of Canadian aid to Asia.

"The western democracies have to make up their minds either to allow Moscow's fantastic lies to win to their side more millions in Asia or to get in there themselves and disprove those lies."

India's government, he said, "faces more terrible and pressing problems than any other government in the world today." Its people, numbering 350,000,000, were "terribly poverty-stricken" and for many of them "famine was just around the corner."

Alaska has a general coastline of 6,640 miles, extended to 33,904 if all bays and inlets are counted.

New Type Of Annuity Planned By Government

OTTAWA, Nov. 9 (BUP).—Labor Minister Milton Gregg said the government will ask parliament soon to double the maximum amount of government annuities an individual may purchase a year.

The limit is now \$1,200, and under new amendments to the Annuities Act, the figure will be raised to \$2,400. The minimum of \$10 will be increased to \$50. Gregg also announced that three new types of annuity contracts will be issued by the government.

1. A contract for the payment of a straight term annuity—an annuity for a specified period of years not exceeding 20.

2. A contingent life annuity contract—a contract under which an annuity is payable to one person for life, with continuation to a second person on the death of the first annuitant.

3. A contract providing for the payment of a combination of a term annuity with certain other authorized types of annuity.

Gregg said the third type would permit the issue of a contract providing for payment of a maximum annuity for a specified term of years, and thereafter paying an annuity in a lesser amount for the remainder of the life of the annuitant.

Weather Synopsis

VICTORIA'S SUNSHINE
RECORD TO DATE, 1951—
2,432.2 HOURS

SYNOPSIS: Another active centre was developing about 450 miles west of Victoria today. The disturbance associated with this depression is expected to move almost due east across southern B.C. and Washington in the next 24 hours.

Cloudiness is general over the southern regions of the province and rain will spread to southern Vancouver Island and the lower mainland. North coast skies are clear at the moment but increasing cloudiness is likely to spread to those regions as moist Pacific air invades the area.

Unsettled weather is expected to continue through Saturday.

REGIONAL FORECASTS
VALID UNTIL MIDNIGHT
SATURDAY

VICTORIA: Cloudy today and Saturday. Rain today, becoming showery this evening. Showers Saturday. Little change in temperature. Winds light. Low tonight and high Saturday, 49 and 50.

WEST COAST: Little change in temperature. Winds light. Low tonight and high Saturday at Bateau Point, 46 and 50.

VANCOUVER AND GEORGIA STRAIT: Cloudy today and Saturday. Showers this evening. Showers Saturday. Little change in temperature. Winds light tonight. Low tonight and high Saturday at Vancouver Airport, Abbotsford and Nanaimo, 49 and 50.

TEMPERATURES

	Min.	Max.	Precip.
Vancouver	42	51	1.59
Seattle	42	51	1.59
Portland	42	51	1.59

ANGLICAN PAPER CRITICIZES POPE'S CHILDBIRTH REMARKS

LONDON, Nov. 9 (AP).—The Church of England newspaper today termed "inhuman, callous and cruel" a recent pronouncement by the Pope that a baby should not be sacrificed to save the life of a mother in a difficult childbirth.

In a talk to Italian obstetricians at Rome Oct. 29, the Pope said that in childbirth "to save the mother's life is a very noble aim; but the direct killing of the baby as a means to that end is not permitted."

FOREST AREA
Canada's forests cover about 37 per cent of the total land area of the Dominion, but much of this is inaccessible to industry.

Gladiolus Blooms Sell For Solarium

Victoria Gladiolus Society has forwarded \$50 to Queen Alexandra Solarium, representing proceeds of the sale of blooms following its annual show in August.

The contribution was authorized at the annual meeting of the society, when L. W. Taverner, first president of the society, was given a life membership.

Officers elected were Art Douglas, president; G. H. D. Heath, vice-president; Mrs. B. A. Seichel, secretary-treasurer; G. K. Allen, Sam Arrowsmith, Mrs. A. Etheridge, Mrs. J. Emery, E. Edwards, Brig. W. C. Thackray, H. Meyers, directors.

Hydro-Electric Plans Will Be Implemented

WINNIPEG, Nov. 9 (CP).—The Manitoba government plans to go ahead with reorganization of the province's hydro-electric industry before the end of 1951, it was learned today.

At a caucus of its supporters Wednesday, clearance was given to end the delay in negotiations with the city of Winnipeg.

Majority of the government group favored implementation of plan "C" of the Hogg report, proposed by D. M. Stephens, chairman of the Hydro-Electric Board. In a letter Aug. 27 to Mayor Garnet Coulter.

Plan "C" involves government acquisition of all Winnipeg electric assets and the city hydro's power production plants; setting up a municipal commission to purchase and manage all transit, power and gas distribution systems within the city.

The province would own all power plants and be responsible for production of power.

Rolls' Engines

CALGARY, Nov. 9 (CP).—The Alberta, in a newspaper story today, quoted Air Vice-Marshal D. M. Smith, air member for technical services, H.Q., Ottawa, as saying the Rolls Royce "Nene" engine has been chosen to power the new T-33, a two-seater R.C.A.F. jet trainer.

Air Vice-Marshal Smith said that when he left Ottawa two weeks ago plans were for the Rolls Royce Company to set up a plant in Canada to manufacture the new motors. This will mean that the T-33 will not only have a Canadian-built air frame, but also a Canadian-made motor.

Beer For Indians

WINNIPEG, Nov. 9 (CP).—Manitoba Indians may soon be allowed into beer parlors.

In a straw vote Thursday the special legislative committee studying administration and enforcement of the liquor act voted 14-2 in favor of amending the act to allow Indians to be served beer in public places.

The federal government recently passed enabling legislation permitting provinces to change liquor laws regarding Indian exclusion from beer parlors.

Attorney-General C. R. Smith said a survey of Indian areas will likely be made to get public reaction to the proposal. If the amendment is approved Indians will still be prohibited from obtaining liquor permits.

Builders' Loans

WINNIPEG, Nov. 9 (CP).—Resources Minister Robert Winters in a telegram to National Builders' Association said Thursday that the federal government and the Dominion Mortgage and Investment Corporation had ironed out difficulties which held up building programs in the past.

Mr. Winters said loans will be available to would-be home owners by next Monday or Tuesday. No details of the settlement were

THE "ROBINSON STORY"
is a simple tale—but sad. The Robinsons planned a visit to their out-of-town relatives. It was a cold and frosty morning—and the radiator, frozen overnight by the sudden cold snap, began to steam and hiss! And sure enough... when the radiator blew its cap, Robinson, Sr. blew his, too!

STORY PERSISTS THAT TRUMAN READY TO SUPPORT EISENHOWER

NEW YORK, Nov. 9 (AP).—The New York Times says today Democrats have visited Gen. Dwight D. Eisenhower in Paris twice within five weeks and promised him President Truman's support for the 1952 presidential nomination.

The visits, the Times says, appeared to be part of a "much more active and organized campaign than has been generally known" to get Eisenhower as the Democratic nominee.

On each occasion, the story says, the same statement was made to Eisenhower:

"It was that if, at any time before the Democratic National Convention, he would say he would accept its presidential nomination, his visitors were convinced they could guarantee it and he could count on the support of President Truman."

Hutch Is Ready For Anything

"Phooey on Tony Hemmerling, he can't scare me," said Cougar general manager Fred Hutchinson today. Hutch was adamant in denying any reports that he was preparing himself to do battle with Tony Hemmerling, Seattle Ironmen coach and recent one-punch victor over former Canadian heavyweight champ Muzz Patrick in a brawl at Tacoma. Hemmerling

brings his team to town tonight but Hutchinson was not planning anything out of the ordinary. Said he, "The mask? Well, you know how those pucks fly around, and I always wear boxing gloves to keep out the cold. What's more you know that I use a baseball bat to stoke up the boilers before a game."

Rockets In Deep Freeze Following Prairie Trip

McGAVIN CUP PLAY BEGINS

To provide funds for injured players, the Victoria and District Football Association will begin its first round of McGavin Cup soccer games Saturday.

The first game of the benefit series finds Victoria West and Esquimalt tangling at lower Beacon Hill Park at 2:30. The game had originally been billed for Athletic Park, but work on the drainage system at that park forced the change in venue. In other first round games, Alcoa meet Victoria City at lower Beacon Hill, Sunday at 2:45, and Heaneys travel to Duncan to play the Native Sons.

Wood Kayos Hall In City Mitt Feature

John Wood, who has the makings of a good Silver Gloves contender, decided Bill Hall in what was termed by many as the best fight on a boxing program held at the Victoria Ballroom Thursday night. The Police Club contestant nailed the James Bay boy in the second round of their scheduled three-round bout, after being outboxed in the first round. Kerry McVetter was literally saved by the bell after he was nearly knocked out by free lance fighter Pete Anderson in the feature event of the evening. In the 135-pound class, Mike Audain of Police Club downed Bob Blaine of the navy, thus overcoming a four-year difference in age.

ATTENDANCE POOR

An interested spectator at the ring side was Ross Durkin, secretary-treasurer of the B.C. Amateur Boxing Association. Durkin stated that the fights were very good, but was not pleased with the attendance.

Next boxing matches will be held at the Victoria Ballroom on Nov. 22, under sponsorship of the Victoria Police Club.

The Police Club is hoping to schedule a match between Earle Vance and Tommy Palmer, Vancouver Golden Gloves winner. Also, Ginny Chang and Bunny Smith of Chemainus will be on the card.

Results follow:
80 pounds—Richard Teichert (Esquimalt) defeated Dick Hodgkinson (Police Club).
75 pounds—Perry Hallam (E) defeated Harry Richardson (James Bay).
135 pounds—Mike Audain (PC) defeated Bob Blaine (Navy).
90 pounds—John Ward (PC) defeated Bill Hall (JB) by T.K.O.
70 pounds—Tom McGaw (E) defeated Sandy Caldwell (JB).
100 pounds—Frank Hallam (E) defeated Jim Porter (JB).
75 pounds—Gordon McGaw (E) defeated Don McGaw (PC).
135 pounds—Earl Vance (PC) defeated Colin College (defeated Paul Calvey (JB)).
Special bout—Earl Vance (PC) defeated Ronnie Joe (PC).
35 pounds—Bob Little (SL) defeated Dale McIlroy (PC).
75 pounds—Eaton Curtis (PC) defeated Gordon Raby (SLC).

Tacoma Rockets returned to warm Pacific climes today after taking a three-day dose of cold prairie treatment. They wound up their first Pacific Coast Hockey League eastern trip at Calgary last night by taking a 4-2 knocking from the Stampede. Saskatoon and Edmonton defeated Tacoma on the previous two evenings.

Tonight, Calgary shows at Edmonton, New Westminster is at Vancouver and Seattle at Victoria.

The stamps took advantage of Tacoma penalties in the last period to score three goals. Tacoma scored the only goal of the first period, Calgary the only one of the second. The Rockets shot another after Calgary was all through.

With Tacoma a man short, Calgary took the lead early in the last period and jammed in two more within 40 seconds halfway through when another Rocket was off.

Eric Pogue scored two Calgary goals and Norm Larson and Mitch Pechet got the others. Warren Godfrey and Ted O'Connor counted for Tacoma.

The win moved Calgary into seventh place by themselves, leaving Vancouver alone in the cellar.

HYPONOTIST BACK

Canuck owner Coley Hall and professional hypnotist Ray Munro held another seance yesterday to plan hypnotic strategy for tonight's game with the Royals.

Vancouver had been winless 16 times out when Munro gave them the treatment Tuesday night and they defeated Victoria Cougars 4-3. Hall said if Munro's soothing words worked again, he would take the former Vancouver photographer to Tacoma Saturday night. If they didn't he probably wouldn't.

SUMMARY
Referee: Eddie Powers; Linesman, Jerry Trudell.
First period—1. Tacoma, Godfrey (Johnson), Adams 10:02. Penalties: Dickens 5:41, Kerr 6:40, Bedard 11:46, Shvetz 13:36, Bedard 15:02, Jones 18:12.
Second period—2. Calgary, Larson (Agar) 17:40. Penalties: Hogue 9:43, Godfrey 9:43, Bedard 10:38, Shvetz 12:01, Jones 19:17.
Third period—3. Calgary, Pechet (Bedard, Goodacre) 3:48, 4. Calgary, Pogue (Morrison) 5:29, 5. Calgary, Pogue (Thomas, Auerbach) 10:08, 6. Tacoma, O'Connor (Brown) 16:02. Penalties: Brown 18, Bradley 2:21, Davidson 8:23, Dickens 11:07, Sloops—Dertell 7:10-26, Stevenson 10, 10, 9-29.

ONE-PUNCH TONY HERE TONIGHT

The Case Of The Blackened Optic

By BILL WALKER

There still exists some doubt whether Tony Hemmerling, an unknown pugilist who has risen to prominence overnight, blackened the eye of Muzz Patrick, former amateur heavyweight champion of the Dominion, Saturday night last.

Mr. Hemmerling, who in his spare time coaches the Seattle Ironmen of the Pacific Coast Hockey League and who, incidentally, will be here tonight with his Ironmen, was not available for comment at press time.

Mr. Patrick was also unable to be contacted, as he is licking wounds of another nature, his Tacoma Rockets having had both eyes blackened by, in turn, Saskatoon Quakers, Edmonton Flyers and Calgary Stampede. (They lost three games.)

But concerning the discrepancy arriving out of Hemmerling's fist

connecting with Patrick's eye (or not) opinion is still divided.

It has been reported by Frank Dotten, who owns the Ironmen and also manages Mr. Hemmerling, in and out of the squared circle, that Mr. Hemmerling's outburst was occasioned by the fact that Mr. Hemmerling, like Mr. Dotten, does not like referees.

And, furthermore, Mr. Hemmerling, again coinciding with Mr. Dotten, particularly does not appreciate referees being told what to do by Mr. Patrick.

That is the gist of what happens. Cam Proudlock, who referees when there are four games and only three referees (his normal occupation is linesman), does not make a call without Mr. Patrick's approval. At least, this is Mr. Hemmerling's opinion.

And so, after seeing Mr. Patrick walking arm-in-arm with Mr. Proudlock before the start of the

TONY HEMMERLING

... champion of a champion

third period, Mr. Hemmerling walks over to Mr. Patrick, feints

with a question, and whammo ... he lets Mr. Patrick have it. When Mr. Patrick attempts to retaliate, Mr. Hemmerling neatly dodges, causing Mr. Patrick to throw the arm out of his suit connecting first with his pal, Mr. Proudlock, and then Mr. Danny Sprout, who by this time has arrived to look after Mr. Hemmerling's interests.

Mr. Dotten also reports that he gets a bill for a new suit from Mr. Patrick.

That is one version.

The other report is accredited to Mrs. Muzz Patrick, who is, or should be, an expert on the matter of hubby's black eyes.

Mrs. Patrick brands the tale of a "shiner" as false; also, that Mr. Dotten was billed for one suit as so much gossip.

The decision of the judges is that Mr. Hemmerling was undoubtedly the aggressor, but that

Mr. Patrick was forcibly restrained from defending his championship by his seconds (Tacoma players), who realized it was an overmatch. This despite the fact that Mr. Hemmerling challenged Mr. Patrick and, flushed with his success, immediately afterwards asked to resign from Mr. Dotten's hockey employ in order to further his fistic career.

At last report, Mr. Hemmerling had acted upon friendly advice and decided he was better suited for managing the Ironmen than contesting Mr. Patrick's championship once more.

After all, Mr. Hemmerling weighs but an ulcerated 160 pounds as compared with Mr. Patrick's 230 pounds of proteins.

Mr. Hemmerling, who still has an arm in his suit, will be the fellow leaning over the edge of the Seattle players' box tonight. It is to be hoped he appreciates the officiating.

8 Victoria Daily Times FRIDAY, NOV. 9, 1951

FIREMEN COMING

United Faces Severe Test

Still without a manager since the resignation of Tommy Restell, the Victoria United will be at full strength player-wise for Monday's Coast Soccer League clash with Vancouver Firefighters at Athletic Park.

With United tied for top spot in the league with North Shore, and the first half rapidly drawing to a close, the holiday games will be vital in deciding a first-half winner.

A win for United over the Smoke-Eaters combined with a North Shore loss to New Westminster Royals Saturday would leave United sole possessors of the loop leadership.

Wally Milligan will be back pivoting the forward line after filling in at an inside spot last Saturday when the team was short-handed. Denny McGee and Stan Bob will start at the inside with Ced Robb and Ab Travis on the wings.

Sid and Jack Robbins will be at the halves while Bill Hope and Joe Robbins will protect goalie Joe Tommy Druce, Ken Sneddon, Don McGee, Bob Allen and Red McMillan will be available for duty as spares.

The Firefighters will field a shuffled team but one that is expected to give the locals a stiff battle. Heady Frank Ambler holds down the centre forward spot with Bill McLure and Dave Brown at insides. Wingmen are Pete Proctor and Alf Hughes.

Halfbacks are Dave Sullivan, Doug Greig and Alex Davidson. Dick Kensing and Ernie Smith, a pair of hard-kicking fullbacks, are counted upon to divert any United attacks on goalie Rex Sheppard. Firefighter spares are Dave Redburn, Glen Johnson, Harold Lewis and Bernie Rosen.

On Saturday, Eagles meet St. Louis College at Hampton Road; Mic Mace plays Combine Peewees at lower Beacon Hill, and Eagles tangle with Argosy Cafe at upper Beacon Hill. All games start at 1.

SPORTS MENU

8:30—Hockey: Seattle Ironmen vs. Victoria Cougars, Memorial Arena.

1:00—Soccer: Rapid vs. Argosy Cafe, Upper Beacon Hill.

2:30—Soccer: Victoria College vs. Esquimalt, Upper MacDonald Park.

1:00—Basketball: vs. Arrow Point, Upper Beacon Hill.

8:30—Basketball: Vancouver Blades vs. Victoria Individuals, Victoria High School.

8:30—Wrestling: Regular weekly card, Bay Street Armory.

SUGAR RAY MAY MEET GRAZIANO

NEW YORK, Nov. 9 (UP).

There is a good chance that Sugar Ray Robinson will defend his world middleweight championship against former champ Rocky Graziano at Chicago Stadium, Feb. 20.

Managing director Harry Markson of the International Boxing Club said today that negotiations between the managers of the two fighters had reached agreement "in principle" on the bout but that "nothing has been signed yet."

Markson didn't reveal the nature of the terms being discussed by George Gainsford, manager of Robinson, and Irving Cohen, manager of Graziano. But it was reported that Robinson was to receive 35 per cent of the gate and Graziano 25 per cent.

Of course, all arrangements for the Chicago bout hinge on Robinson's retaining his title when he makes his first defense against Carl Olson at San Francisco, Dec. 20, in a charity bout.

Oak Bay Win Makes Triple Hoopla Tie

Oak Bay downed Vic High Blacks 31-30, Thursday, to move into a three-way tie for the lead in the Inter-High School Junior Boys' Basketball League. They are now sharing the winners' circle with Mount Douglas and Mount View.

Vic High Blacks climbed into a fourth-place tie with Esquimalt, by defeating the suburban squad 15-12.

S. J. Willis won their first contest of the season when they downed the cellar-dwelling Central Junior High School 19-17 in overtime.

TOUGH ON 'PORKY'

Alberni Cagers Spank Totems

By TED WHAN

An embarrassing position to say the least. There was Porky Andrews, alternately grinning and frowning as he was watching two basketball teams battle it out in a bitter rivalry.

Andrews' mortification was caused by the fact that he felt strong allegiance to both teams. Being the coach of Vic High Totems, he had to root for them. But being past coach of the powerful Alberni High School squad, he could not be blamed for feeling just a little bit proud when the up-landers walloped the whey out of Vic High to the tune of 60-48 at the high school Thursday night.

But for the fact that the Alberni-ites were a dozen points better than the locals, it looked as if the teams had practised together all season. This, of course, was the result of Andrews' coaching of both squads. Easily the outstanding player on the court was Williamson of Alberni. Besides popping in 15 points for snipers honors, he played an effective checking game throughout. Groholski and Mosdell were close behind with 11 points apiece. Click Clark and Jack Shields contributed most of the Vic High spark by dividing 22 points.

In a preliminary game, Don Donahue's 15 points were almost enough alone to defeat St. Louis College 47-16.

PLAY ON MAINLAND

The Totems left on the midnight boat Thursday for Vancouver. There they will play Kitsilano tonight and South Burnaby High Saturday night.

Totems "A"—Pederson 2, Anderson 4, Zahraus 8, Shields 11, Clarke 11, Abbott 4, Whan 5, Kirscher 1, Oakley 2, Total 68. Alberni—Grey 4, Ames 3, Groholski 11, Nicol 3, Mosdell 15, Williamson 2, Pennington 11, McLure 6, Perry, Secretary, Schick 5, Total 60. Totems "B"—Woollett 8, Zarr 10, Dennison, Donahue 14, Boydland 2, Ash 1, Hodge 12, Total 67. St. Louis College—Sleep 4, Martin, Morrison, Richter 7, Clarkson 7, O'Neill 5, McInnes, Total 16.

Island Grid Envoys To Vancouver

When Royal Roads travel to Vancouver Saturday to take on Meralomas in an exhibition Canadian football game as Brockton oval, they may well carry the future of Victoria's football with them. The local champs could be the deciding factor in deciding whether a team from Victoria will be entered in the Vancouver Big Four next

season. In top form, the cadets will field a first string of, front row left to right, Douglas, Wark, Jonas, Thompson, Davies, Goodfellow and Czaja. In the backfield, left to right, Kilger, Smith, Price, Ferguson and Fye. Price is a doubtful starter because of an eye injury.

On the OUTDOOR FRONT

By ROY THORSEN

Keep conservation uppermost in mind! If you don't, your hunting and fishing will go downhill to almost nothingness like it has in many of the states south of the border.

That is the advice of William E. Hawkins Jr., Saanichton, the "Connecticut Kid" who adopted Canada—and Victoria—as his new homeland three years ago.

Likeable and frank-spoken Bill was addressing the Victoria Rotary Club Thursday afternoon in the Empress Hotel.

Fishing and hunting in the eastern and southern states of the United States was tops 25 years ago, said the retired, prominent real estate man, "but I saw it decline to a terrible state in a matter of a few years." (He was retired, but got tired of that and went into the gun-fishing tackle business with Joe Gibault.)

Hawkins didn't come right out and say it, but the implication from his remarks were that the concentration on the game and fish populations was too heavy and not enough on conservation controls.

Hawkins had a sizeable farm in his home state. Five years ago, he said, the game trail offerings got so bad the only way one could provide friends with a fair brand of shooting was to raise your own pheasants.

"If you didn't have any acreage for this purpose you had to go to game farms, where birds were released from pens for the hunters—and that cost you \$25 a shoot."

"I've only been here three years but I've enjoyed the best fishing and hunting in many, many years on the west coast," said Bill.

"Rivers immediately adjacent to Victoria offer wonderful fishing in comparison to the New England States' rivers, for instance. Stress for very special treatment should be pushed to keep it that way," he added.

Island Fishing Top-Grade

"I firmly believe that what we have here on Vancouver Island—and my U.S. friends agree—is the last stand for accessible good fishing... and you've got to handle it properly, with the supply for the future kept uppermost in mind," the speaker said.

He thinks steelhead fishing such as offered in the Englishman's Ash and Stamp Rivers is supreme in river fishing on the continent... and figures the island blue grouse are the most outstanding bird we've got and should be preserved... and light saltchuck fishing the best, especially the coho on the bucktail fly.

Bill says he quit shooting in New York State a few years ago. It got kinda dangerous.

He told how he and his friends were traveling along a road and saw about 35 armed men hiding behind telephone poles. They stopped to ask one of them if they were on a man-hunt and got the reply:

"Hell, no... there's 1,500 hunters out there in the woods and we're here because we know that they'll flush some deer between these telephone poles sooner or later."

By the way, there were 140 gunshot casualties in the hunting ranks that year.

Main attraction for the saltwater fisherman these days is grise... and they're big-size, going one to 1½ pounds right from Brichie Ledge off the breakwater around to and including Saanich Inlet.

The offering-off Brichie Ledge may be indicated by this few-hours catch by Fred Merriman and Jack MacIntyre Thursday morning, 13 big grise and one large black bass. They were using gang-troll and worm.

Oak Bay Boathouse operator Vic Hurst tells us that the grise fishing is generally good from the ledge right around to 10-Mile Point "and there are some springs and coho offered." An Indian fisherman took salmon weighing 20-24 pounds from Discovery Island to the light Wednesday, said Vic.

Saanich Inlet boathouse owners and fishermen alike report that Saanich Inlet is a good spot to get a creel full of grise at the present time.

... And The Odd Big Spring

But those who say that there are no big springs around should take note of this Hall's Boathouse report that Fred Curle's catches this week included a 22½-lb. spring and Frank Thew took a 16½-pounder.

Jack Harris tells me that he and Frank Thomas, Vancouver, airplane operator for the R.C.M.P., got a big creel full of grise off Bamerton Wednesday. They were using bucktail flies and flatfish, the bucks being the most accepted by the young springs.

Stan Williams reports that the mouths of the Qualicum and Oyster Rivers are good for steelhead and cutthroats at the present time. Head of the Cowichan River is offering fair fishing on deeply sunken flies.

Don Kiers of the local game office reports that the blue grouse shooting season is over... that ducks and Wilson snipe become legal prey tomorrow... that the deer season ends Monday at dusk.

ANNUAL CUP SERIES

Vic High, Oak Bay Girded For Battle

By TED WHAN

"This is it" will be the words spoken by the Vic High rugby players at Oak Bay, Nov. 21 as they warm up for the first of the long-awaited Howard Russell Cup games in which they will attempt to dispossess Oak Bay of the trophy... symbolic of rugby supremacy in Greater Victoria high schools.

At the Oak Bay end of the field conversation will probably run along the line, "Well, here we go again," and the ultimate cause for this statement has a good foundation as the Bays have held the trophy for the last eight years.

The Vic High XV, yet to be beaten this year, is practising arduously and have attended numerous chalk talks by Coach Joe Andrews. These talks have proven to the players that in

rugby, brains are nearly as important as brawn.

Vic High hopes will rest on a fast rugged three line and a driving untiring scrum. Oak Bay's laurels will rest on a well co-ordinated scrum plus a firm will to win which has in the past provided them with impressive victories.

The second game of the three-game series will take place Nov. 26 at the V.H.S. grounds and, if necessary, the third game will be played Nov. 30 at Windsor Park.

TIME OUT! By Jeff Keate

"You're on the college basketball team, aren't you?"

City Hoop Sked Released

Preceding the Individuals-Vancouver Elfers senior A basketball game Saturday night at Vic High, Arrow Furniture of Inter-mediate B Girls' League will play MacDonalds senior B women in an exhibition match.

Next Wednesday the Victoria and District Basketball Association will present a three-game card. Mt. View High School will take on St. Louis College in an intermediate B game followed by a senior B women's contest between Moose and MacDonalds. The feature senior B men's game matches Veterans of France and Victoria College.

Hawk Fans Trifle Bored

Smallest Crowd Ever Sees Leafs Score Win

Chicago Black-Hawks fans—who debunked for years the old saw "you gotta produce a winner to get a crowd," are yielding to that popular sports theory after five heartbreak years. They've decided, after setting season National Hockey League attendance records, that a last-place club can become a trifle boring.

Only 4,102 hard-bitten folks turned up at Chicago Stadium (capacity 20,004) Thursday night to see Eddie Goodfellow's last-placers drop a 3-1 decision to Toronto Maple Leafs. It was the smallest turnout at the stadium since the Hawks got their N.H.L. franchise 25 years ago.

The other N.H.L. game Thursday was played at Montreal where the Canadiens climbed to within one point of the third-place Boston Bruins with a 4-2 decision. A count of noses 13,971, smallest crowd of the season at the Forum.

Hawk fans have shown the patience of a Job as their "favorites" floundered around in the cellar. Since the 1946-47 season, they've trailed the pack each time out except in the 1949-50 campaign when the Hawks climbed a notch.

And through it all the Chicago fans turned out in fantastic numbers—521,831 in the 1946-47 season, highest in the league. The following year the count was 491,584, again high-water mark for the six-team circuit and it was the same story in 1948-49 when the figure was 491,494.

Figures weren't compiled for publication—the last two seasons but unofficial surveys indicated a drop in all N.H.L. cities except Toronto and Montreal.

At Montreal, the Bruins suffered their first loss in seven games. Bert Olmstead, Ross Lowe, Dick Gamble and Paul Moger scored for the Canadiens and Johnny Pierson and Vic Lynn for Boston.

SUMMARIES

TORONTO 3, CHICAGO 1
First period—Scoring, none. Penalties, Gadsby, 2:35; Foyen, 11:31; Misy, 16:58.
Second period—1 Toronto, Misy, (M. Bentley), 8:45; 2 Toronto, Kennedy (MacBell, Nelson), 15:54; Penalties, Desjardis, 11:30; Misy, 15:25.
Third period—3 Toronto, Watson, Bellon, Gardner, 7:54; 4 Chicago, Conacher (Horeck, Bodnar), 10:13; Penalties, Boston, 1:01.
Stop: Rollins, 11:45-25; Lumley, 10:4-5-21.

BOSTON 2, MONTREAL 4
First period—1 Montreal, Olmstead (Richard Lowe), 7:35; 2 Montreal, Lowe, 16:56; Penalties, Estabick, 6:52; Geoffrion, 7:50; Johnston, 15:30; Sandford, 15:30; Olmstead, 16:08.
Second period—3 Montreal, Gamble (Lowe), 9:01; 4 Boston, Pierson (Brown), 13:08; 5 Boston, Lynn (Kyle), 19:40; Penalties, Laycoe, 4:51; 7.
Third period—4 Montreal, Moger (Richard), 12:29; Penalties, none.
Shots on goal: Henry, 13-8-4—38; McNeil, 6-8-10-24.

Notice of Firing Practice

Anti-aircraft firing practice will be conducted from the vicinity of ALBERT HEAD as follows:

14 NOV. '51—1900 hours to 1200 hours
15 NOV. '51—1900 hours to 1200 hours
16 NOV. '51—1900 hours to 1200 hours
17 NOV. '51—1900 hours to 1500 hours

Practice will be conducted seawards in an arc bounded by RACE ROCKS and the BROTCHE LITON and the danger area will extend for eleven (11) miles.

By order of COMMANDER, REQUIMALT GARRISON.

Eskis One Hour From Cup Final

REGINA, Nov. 9 (CP).—Edmonton Eskimos battle Saskatchewan Roughriders here Saturday. They hope history won't repeat.

As they go into the second game of the best-of-three western football finals, the Eskis find themselves in the same position as a year ago.

Then they took the sudden-death semifinal from Roughriders and got the jump in the final at the sudden-death semifinal. And the next game is here Saturday—and a third, if necessary, Monday.

Annis Stukus' Eskimos hope to wrap it up in two straight.

"We'll shoot the works Saturday," he said after putting his crew through a final passing work-out in Edmonton Wednesday.

"What have we got to lose? We won't do anything foolish—but this is it."

And he told the Eskis: "We've got only 60 minutes more to that Grey Cup, gang, remember that."

Harry (Black Jack) Smith's Roughriders will be all out Saturday, too.

The Roughriders have practised two straight days in full equipment, and plan another full drill today. The emphasis is on body-contact, blocking and tackling.

"The Eskimos are a good team," Smith said yesterday. "But they can be beaten by a good blocking and tackling team. If we tackle and block hard and are in the right mental condition we can take them on Saturday."

Weather conditions are expected to be better than when the Edmonton game was played in a snowstorm. The forecast:

"Good weather and quite mild." The field was reported frozen hard, with the possibility that warm sunlight would draw out moisture to give a slippery surface.

BAKER STILL IN DARK

"Nothing in it," said Norm Baker, Victoria Individuals coach when informed of rumors that Kenny Lawn, former team-mate of Bakers with Vancouver Hornets, had received an offer from Viduals.

Apparently, Lawn stated in Vancouver that he had received a letter from Individuals and was waiting only further confirmation before packing his bags. Baker said this morning that he had heard Lawn was interested in the Victoria set-up but that the club had done nothing about it.

Meanwhile, Baker has received no further word on his one-game reinstatement for Saturday's game with Vancouver Ellers at Vic High. Baker was hoping to hear from B.C. basketball chief Wilf Cain regarding a one-game ruling allowing him to play before his official reinstatement is received from the Canadian Basketball Association.

IRON FASTER
No time wasted
plugging in,
plugging out

JUST DIAL
THE FABRIC

MAINTAINS THE RIGHT
TEMPERATURE
AUTOMATICALLY

GENERAL ELECTRIC
Automatic Featherweight Iron

Here's why
you'll finish
your ironing
**FRESH AS
A DAISY!**

You won't waste precious ironing time plugging-in and plugging-out when you change to a G-E Automatic "Featherweight" Iron. The finger-tip Fabric Dial "tunes in" the right temperature for every fabric and maintains it—automatically.

You'll cut ironing time by as much as a third because this iron is extra-light—because its larger soleplate covers more ironing surface with every stroke.

Perfect balance, cool handle, light weight—plus its automatic feature—add up to faster ironing that will leave you fresh-as-a-daisy. See this G-E "Featherweight" today...wherever electrical appliances are sold. **\$16.50**

Listen to the Canadian General Electric Radio Show featuring the Leslie Bell Singers, Howard Cable and the Orchestra, Charles Jordan, Baritone—every Sunday evening at 5.30 P.S.T., CBC Dominion network

relish each sip
of its rich, mellow,
true Highland flavour.
... then consider
its modest cost!
No wonder MACNAIR'S
leads the parade!

MACNAIR'S
HIGHLAND WHISKY

A product of G & W Canada's Oldest Distillery

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

Christmas trees are going to cost more this year. The price may mean some children will miss them altogether.

Price per bale of one to six trees is \$1.25, compared with last year's starting price of 75 cents.

J. Hofer Ltd., the world's largest Christmas tree company, which operates at Cranbrook, alongside J. R. Kirk Company of Portland, plans to start outgoing shipments Nov. 20. Crews are working at full speed to meet this requirement.

Public opinion was violently opposed to the harvest when this branch of the industry was introduced about 10 years ago, but with organized selective cutting and year-round cultivation of bushland it now is recognized as an annual crop.

It is estimated to be a \$500,000 industry in B.C.

Operators must get a cutting permit before starting out. They are only allowed to cut trees on land which isn't suitable for growing commercial timber.

PAYS A BET

Queen To Aid Mayor Sweep Royals' Arena

"You sweep my ice and I'll sweep yours."

That's the arrangement involving Mayor Percy George of Victoria and Mayor F. H. Jackson of New Westminster, resulting from both cities losing their bets on Community Chest returns.

The mainland city had a slight edge over Victoria in funds raised during the recent Community Chest drive, but officials called the contest a draw in a sporting gesture.

Mayor George and Miss Inez McLeod, P.N.E. and Community Chest queen, will do a broom duet in New Westminster's Queen's Park Arena Saturday, while attending the Royals-Cougars hockey game.

Mayor Jackson will cross the straits, broom in hand, to sweep Victoria's Memorial Arena ice at a later date.

Island Rangers Under Training By R.C.M. Police

South Vancouver Island Rangers have started training in various aspects of police work.

First of a series of 24 lectures they will receive was given Wednesday night at Bay Street Armory by officers of the R.C.M.P.

Course will continue until next March and will include training in narcotics control, counterfeiting investigation, questioning of prisoners and traffic control.

Course was arranged through Superintendent C. W. Harrison, head of the forces C.I.B. in British Columbia.

BABY'S COLD VICKS
Now to relieve distress without dosing, rub on VAPORUM

HOME GARDEN

by Hilda Beasly

On the dry day's home gardeners have been busy replanting, and making over the perennial borders, and have paid little attention to the jobs which have not entailed digging.

As we look around we note a few spots which present a somewhat untidy appearance, and the work on these can be fitted into the dull days when there is no biting wind. With suitable clothing, and the knowledge that a cup of hot coffee may be had at a moment's notice, a very pleasant and useful hour or two may be spent in clearing up.

While some districts have suffered extensively from frosts, others have been relatively free and in the latter some of the annuals are still showing the odd bloom. Much as we cherish these late reminders of summer, all annuals should now be pulled up and put on the compost heap, so that the ground may be ready for an easy start in spring.

When pulling out plants, much may be learned by studying their rooting habits—some are extensive while others are small and shallow. This may be a guide in the planting of next summer's display.

Peony leaves have been quite attractive with their bronze coloring, and useful for inside decoration, but now they should be cut off close to the soil, and burned. This will prevent the possible spread of disease to which peonies are subject.

The foliage of the late flowering herbaceous perennials may be cut down now. The fall asters (Michaelmas daisies) will not give any further bloom, and should be cut to three or four inches above the soil. New growth is already in the making for next season. Phlox should be treated similarly.

Rage up all debris, and stir the soil between plants. For this purpose I find a 4-pronged manure drag the most practical tool.

Burn woody material, and bramble and rose cuttings. The thorns of the two latter can be

Seattle Band To Give Concerts Here

The Seattle Salvation Army Band of 30 pieces will pay its first visit to Victoria on Saturday and Sunday.

A concert at the Pandora Avenue Citadel on Saturday evening at eight is scheduled. It will be heard again in conjunction with the Victoria band on Sunday afternoon at 2.30.

Under the baton of Lieut. George Duplain, the visiting band will play such favorites as the "America" and "Montreal Citadel" marches, selections "Glorious Name" and "Rays of Sunshine," and the euphonium solo, "The Happy Pilgrim."

The American band differs from its Canadian counterpart, in that it has members of both sexes, plays in concert pitch, as compared with the English brass band "high" pitch. The style of rendition is distinctly American.

FLYING MONSTER

Largest of all types of bats, the great kalong of the Far East measures nearly five feet across its wings.

DOCTOR RAPS 'LEGAL' ABORTIONS

SAN FRANCISCO, Nov. 9 (AP).—Legal abortions should be outlawed along with those now prohibited by statute because they are "legalized murder," a prominent surgeon said today.

"Anyone who commits therapeutic (legal) abortion today," said Dr. Heffernan of Boston Medical College at the American Clinical Congress "does so because he is either ignorant of the modern methods of treating the complications of pregnancy or is unwilling to take the time to treat them."

FREE LIBRARIES

Establishment of libraries free to all taxpayers was first authorized in England in 1850.

FRENCH OUTPOST

The French colony of Karikal on the coast of Madras, India, has an area of 32 square miles.

ATOMIC CANCER FIGHT

Savant Sees Revolutionary Aid

DALLAS, Texas, Nov. 9 (AP).—Tailor-made devices for applying atomic energy against cancer were predicted today.

Dr. Herbert D. Kerman, an atomic scientist, said the possibilities rest with radioactive cobalt, a "relatively cheap substitute for radium."

He said the substance has special properties lending them-

selves to the fabrication of applicators which might, in effect, be form-fitted around a cancer on the body's surface.

The idea would be to bring powerful atomic radiation against malignant tissue on surfaces difficult to attack.

Dr. Kerman says: "With imagination, one can foresee applicators devised from cobalt foil or made by plating or

spraying the material on specially-constructed molds."

Already, he said, one scientist has suggested the possibility of incorporating radioactive cobalt in powdered form into a plastic material which, in turn, might "be cut to desired shapes for direct application to a tumor."

He said that in the treatment of internal cancers, radioactive cobalt already is being used.

Mrs. M. Gaunson... a champion and champ.

TOPICS OF THE TIMES

Graves of Victoria soldiers in Holland will receive attention Armistice Day. In Holland as in Canada, Nov. 11 has been declared Poppy Day and proceeds from the sale of flowers goes towards the upkeep and beautification of grounds of Canadian War Cemeteries.

Many Hollanders have "adopted" graves of Canadian soldiers and make themselves individually responsible for their decoration and remembrance. The Dutch Poppy Day fund is also used to make next-of-kin guests for a three-day period when visiting Canadian graves.

Plans have been laid to integrate the work of the Civil Disaster Nursing Committee with the organized civil defense of greater Victoria, co-ordinator L. G. Hatcher said today.

The arrangement will provide the medical side of the warden's posts," he explained. The civil disaster group is formed of Registered Nurses and Red Cross nurses. The new plan will provide for all unattached nurses to start taking classes on January 2.

The car hit a telephone pole, a fence, a tree and wound up on a lawn. The damage was \$400; but the driver escaped unhurt.

Saanich police said the car was in charge of Hubert R. Massey, 901 Easter, when it went out of control on Saanich Road at 12:50 this morning.

Some lucky "old grad" of Victoria West School will win a prize Nov. 16. The award will go to the person who attended the school the greatest number of years ago, and who is present at the Victoria West P.T.A. Country Fair, which will start at 7 in the evening.

In addition to the usual country fair attractions, the event will offer movies and games for the children. The fair marks the 31st anniversary of the Victoria West P.T.A.

Colquitz Creek Bridge on Interurban Road will be open to traffic next Tuesday or Wednesday, Henry Blakeney, Saanich superintendent of works, said today.

Although the deck will be finished today, there is still work to be done on approaches and guard rails, he said.

Work in the creek bed to improve drainage, he said, is not yet completed.

Two motorists in Saanich police court Thursday were prohibited from driving for three months except for business purposes.

They were R. E. Walsh, West Saanich Road, and T. T. Waters, 1790 Cedar Hill, who were fined \$35 each for careless driving.

Allan D. Wilson, 2230 Willow, was remanded to Nov. 15 for judgment on a charge of driving a car while his ability was impaired by alcohol.

Ronald Finch-Field, naval rating, was remanded without plea to Saturday in city police court to day on a charge of indecent assault on a female.

Seven radio stories by Victorian Cecil Clark have been accepted by CBC and will be broadcast weekly over the coast and mountain network, starting Thursday morning next week at 10:15.

The stories are based on some of the major cases of the B.C. Provincial Police of which Clark was deputy commissioner until his retirement in August last year.

The present series make 20 stories Clark has written for CBC since he turned his attention to free lance.

Teacher's Job Significant In Democracy (Special to the Times.) NANAIMO.—The teacher has a No. 1 responsibility in guiding growth of children in this democratic and highly mechanized age.

That was the message brought to 975 men and women attending opening of the fifth annual V.I. teachers' convention here by Dr. John A. B. McLeish, who addressed a public meeting in John Shaw High School Thursday night.

Speaking on "Trends and Problems in Education" he stressed the "privilege and challenge" for teachers in training the young.

Teaching methods for various subjects at the primary, intermediate, junior and senior high levels, were discussed at sectional meetings today.

Question of continuance of the island convention will be discussed Saturday, closing day of the convention.

'What We Need Is Cat Week'... Furry Friends Agree

By HUMPHRY DAVY

Victoria, like cities in the United States, should have a "National Cat Week" which is being observed "south of the border," starting Monday.

That is the opinion of Margaret Gaunson, 76, who can rightly claim to be a "foremost authority on cats."

The small, soft-spoken woman owns cats in some numbers—so many that she admits that she has lost count of the friends she keeps in her small Miller Avenue cottage.

She guessed she had at least 15 cats, but unless the reporter was suffering from hallucinations there were more.

There were three pussies warming themselves in the oven of the stove, three others reclining on the warm top,

several on the piano, and others on chairs, window sill and couch.

The reporter tried to make a count. But he was too confused to be accurate.

"Yes," said Mrs. Gaunson, "what we need is a cat week." "People are brutes to cats," she added. "They won't pay more than 10 cents for these fine animals."

All the cats at this point seemed to agree. Mrs. Gaunson felt that the week should be dedicated to a furtherance of public appreciation, understanding and knowledge of the tremendous value of cats to mankind, plus a plea for better care of cats.

She said she took good care of her cats and had a regular medicine chest for them.

Margarine Referendum Law Breach?

MacDonald Warns Of City's Risk

City of Victoria is running the risk of breaking the law if it continues with its plan to present a referendum on colored margarine at the December elections.

Municipal Affairs Minister R. C. MacDonald said today "it appears" that the city would be committing an illegal act.

He quoted a section of the Municipal Act which says a council can submit a referendum to obtain an opinion on a matter which affects the municipality "and with which they have power to deal."

The last section of the clause may prove Victoria's downfall. The city has no power to deal with the matter. Only the provincial government can allow coloring of margarine by introducing an amendment to the Oleomargarine Act. Therefore, the minister reasons, the city may be on dangerous ground.

"I'm not entering into the argument on colored margarine," MacDonald stressed. "I just want to point out the danger to Victoria's city council in proceeding with this referendum."

MacDonald wouldn't say definitely that it would be a breach of the law.

'TRIMMEST CITY'

Victoria Wins Housewives' Highest Favor

"Trimmiest little city on the continent..." That's the reputation Victoria Women's Progressive Conservative Association would like to see pinned on Victoria.

A special committee looking into "local civic housekeeping" today they found some untidy streets and "unhealthy dirtiness" elsewhere.

The letter, signed by Lillian E. Scarth and Lottie Brown, urged enforcement of present city by-laws covering the problem.

They felt the public would cooperate with the police and take as much pride in achieving the trimmiest little city on the continent as they took in our famous flower baskets.

An Emergent Communication of United States Lodge, No. 24, A.F. & A.M., will be held in the Masonic Temple, Piquet Street, on Saturday, Nov. 10, 1951, at 1 p.m. for the purpose of attending the funeral of our late Brother John E. Hutchings. Members of Sister Lodges and visiting Brethren in good standing are invited to attend. By order of the Worshipful Master, H. P. RUTHER, P.M., Secretary.

LOCAL WATERS STILL ARE FREE OF INVADING SMOKE SMUGGLER

Dark nights, isolated coves, grim-faced men, and high-speed boats loaded with cheap U.S. cigarettes have not yet appeared in Victoria.

"There is no large-scale smuggling," G. A. Yardley, collector of customs, said today when commenting on the seizure of 750,000 cigarettes by the R.C.M.P. in Quebec.

"We're a pretty honest bunch in Victoria," he said. "There is no more than the usual smuggling from the United States, and it is all petty."

Neighbor Gains Cost City Dear

Expanding 'Outer Areas' Create Problem In Parking, Need Of Greater Police Force

Expansion of the outer municipalities revealed in the 1951 census is one of the chief reasons for Victoria's acute traffic headache and need for more police, Mayor Percy George said today.

Victoria metropolitan area has shown a 36.6 per cent population growth since 1941, the greatest of seven major Canadian cities.

This was revealed in a Bureau of Statistics report, Thursday night, on preliminary population figures based on the 1951 census.

It showed the metropolitan area expanded from 75,560 in 1941 to 103,199. Victoria itself increased 15.2 per cent from 44,068 to 50,774, but left herself outnumbered by the surrounding municipalities.

"Our traffic and police problems obviously stretch our facilities to the limit," said the mayor. This outer expansion is one of the major reasons for the acute traffic and parking problem. It is a problem of Victoria's own making, he said. But Victoria's need of more police arose out of this "outer expansion."

To a report that reeves of outer municipalities now felt it was a case of the "tail wagging the dog" in so far as their relationship to Victoria was concerned, the mayor gave what he termed a "facetious" reply.

"If it is a case of the tail wagging the dog, the dog is taking an awful beating. If the dog is to survive, he may have to be taken in by the surrounding municipalities."

Neither the mayor, Reeve P. A. Gibbs, of Oak Bay, or Reeve A. I. Thomas, of Esquimalt, felt the population figures would have any bearing on the subject of amalgamation.

While the city does not supply services such as garbage collection, street lighting, road work, the outlying municipalities, it police and fire protection within does supply facilities and much-used roads in the city proper.

These facilities are used by all residents of the outer municipalities, many of whom earn their money in Victoria city, but go to Saanich, Esquimalt or Oak Bay.

TAKE PILLS

Car Frills May Mean More Bills

There are indications car insurance premiums will take a healthy rise in 1952.

And the broad fenders, fancy grill-work, and improvements in cars generally that the motorist appreciates so much are what will cost him the money.

"Repair charges, both for labor and material, are much higher than ever before, and insurance charges have not kept pace with the increased costs," one agent said today.

Little definite information is available on the accident rate. Victoria city police traffic division records indicate there will be more accidents this year than last, but there are more cars in use.

For B.C. alone there are 10 per cent more cars on the road than last year, and census figures reveal Victoria's population increasing. An increase in the number of cars here, therefore, can be expected.

"Our experience has shown this year to be as good, if not better, than last year," the insurance man said, "at least on the island. However, the worst two months are yet to come."

Save Fishboat From Disaster

A gill-net boat was saved today by a passing freighter from destruction on rocky shores of Milne Island, east of Campbell River.

R.C.M.P. said the freighter, the Northern Express, dragged the fishboat off the rocks and towed it to West View, Powell River, for repairs.

Fear Of Death Stops Logging

Men Walk Off 'Jinxed' Job At Nanaimo Lake As Two Die, One Hurt Within Four Days

The "death jinx" today closed woods operations at Nanaimo Lake where two men have been killed and a third injured in four days.

It was not a curse of safety conditions, a union official said, but a matter of "woods superstition"—the unwritten law of the woods. The men walked off the job.

The camp is operated by the Comox Logging and Railway Co. Two men were killed Monday. They were Albino Matteo Sernagiotto, 24, and Albert Sutton. Sernagiotto's brother-in-law, Wilfred Hamilton, 37, was injured Thursday. His condition was reported as "critical" today.

At the time Hamilton was injured, a coroner's inquest jury investigated the death of Sernagiotto.

He was killed by a rolling log, and Coroner W. H. Jones told the jury: "Every industry has a situation which calls for chances being taken."

The jury returned a verdict of accidental death. There have been other occasions, union officials said, when loggers have walked off the job at an operation "jinxed" by accidents.

Swindle Inquiry Called Failure

Victim W. A. Scott, Victoria, believes the probe in the Clyde Gillies \$225,000 swindle case was an "abject failure."

In a letter to the police commission he requests that the "confidential" aspects of the probe, which were not released, be made public.

Probe was ordered by the Attorney-General. Scott and other victimized persons had demanded the probe to learn if Gillies had any assets, which they could claim. The inquiry disclosed Gillies, now in prison, has no known assets.

Madam Speaker is to become a Colonel.

Hon. Nancy Hodges, speaker of the Legislature, has been chosen to succeed the late Mrs. R. P. Butchart as "Colonel" of the Victoria Girls' Drill Corps.

Mrs. Hodges was to have been given her new title at the annual banquet of the team at Club Sirocco this evening, but is confined to her home with illness.

Court Orders Acid Hoaxer's Close Control

The man whose acid-throwing hoax, before it was recognized, stirred deep public indignation against his alleged attackers, was given a two-year suspended sentence in Saanich police court Thursday.

Edward V. Smith, 31, of 1028 Pendergast, was charged with creating a public mischief.

Magistrate H. C. Hall has ordered: Posting of a \$500 bond to ensure his good behavior; a monthly report to the probation officer; restriction of travel to southern island points, except on consent of the probation officer; medical treatment as advised; and an effort to obtain employment.

Still scarred by the self-inflicted burns, police said Smith daubed his face with lye and caustic soda.

He admitted the charge, and that his story of being attacked by three masked youths was a fabrication.

SHOPPING GUIDE

Come On, Mom! Splurge!
Buy Yourself Something!

By PENNY SAVER

Ever get that irresistible urge to go to town and buy something exclusively for yourself?

Nothing for the house, or Junior. Something for you, and alone, for a change.

Maybe a swishy new black taffeta-crinoline skirt—is what you are looking for. Boy! Are they ever beautiful. They're extremely full and the wonderful part of it is that the crinoline is separate and can be used with other ensembles.

Ideal for evening's out or entertaining in your own home. The price is \$12.95.

If you are feeling really extravagant you might like to peek at the adorable nylon blouses which start at \$4.95 and will make a lovely outfit with the crinoline skirt.

You will find the blouses are either plain or trimmed with lace or rhinestone buttons. Any type you prefer.

Have you been lucky yet and spotted the metallic sweaters? They are beautiful. And the price is only \$6.95. You can get any color you wish in this dress-up topper.

As everyone knows velvet is the final word in fashion this season. Found the smartest little velvet outfit that also sells

separates. The skirt is \$12.95 and the jacket \$9.95.

The skirt is gracefully gathered and is accented with lace-cuffed pockets and the close-fitting jacket has a nipped-in waist. You'll love it.

For that something extra you can't go wrong with a wool brooch. They are round or oval-shaped and the centre is an attractive flower cluster of wool. And guess what? You can have buttons made to match.

The brooches are priced at \$1.25 and at \$1.50 in any color you need to complete your outfit.

Oh! They are from Fra-hance, my dearah!

Amazingly enough the feathered hat pins from France do have a Parisian tang. These feathery clusters will do wonders to perk up last year's hat.

If you have a new model in mind you will find smart styles priced at \$4.95.

WHY GROW OLD?

By JOSEPHINE LOWMAN

Be Thankful For Flabby Fat;
It's The Easiest Thing To Remove

(The Friday Question Box)
Q—"I am 15 to 20 pounds heavier than I used to be. My fat is not at all firm but very flabby. Is this a handicap in reducing?"

A—"No. It is just the opposite. It is more difficult to reduce very firm, hard flesh. Yours will melt away, in inches especially, if you exercise, too."

Q—"Will you please help me? What can I do for stretch marks? I have had them ever since the birth of my son five years ago. My doctor said they would disappear."

A—"I have never known of an instance in which these entirely disappeared. They become dimmer. I do not know what you can do for them. They can usually be prevented, and it is too bad that so many women do not know this. If a woman is not overweight and does not become fat during pregnancy she usually avoids these. Also, the habit of rubbing melted cocoa butter over

the abdomen and thighs each night before going to sleep is helpful.

Q—"My little daughter, six years old, has an excessive growth of hair on her arms. Even though they are light in color they are noticeable. I have been advised to wait until she is older to have them permanently removed. What cream can I use that would make them lie closer to the arms? Should I use a depilatory on her at her age?"

A—"I think it would be very difficult to use anything that would make the hairs lie closer to the arm without making them more noticeable than ever. It seems to me that you should be careful not to give her a feeling of self-consciousness by calling her attention to them. Why not wait a while? Maybe they will disappear or become lighter in growth. I wouldn't bother unless her friends are making her feel unhappy about it. I do not know whether or not a cream depilatory would be irritating to her almost baby skin, but I do not believe it would be. If you use one you could make a game of it by using it yourself also. I think I would let nature alone for awhile."

Cards To Make

Cows can't
use crutches

We've heard from Denmark that a cow over there had to have its leg amputated, but gets along quite nicely now on a new one made of aluminum.

Whether or not this artificial leg was made of Canadian aluminum, we wouldn't know. Perhaps it was, because we do produce one quarter of the world's supply. That's quite a big thing for Canada. It means jobs for Canadians and money from abroad to pay for Canadian imports. Right now we are hard at work on extension projects in Quebec and British Columbia; for we intend to go on playing our part in helping Canada grow. Aluminum Company of Canada, Ltd. (Alcan).

CLUB WOMEN'S NEWS

For Schools—It was decided at recent meeting of Ganges Chapter, I.O.D.E., to purchase commonwealth packages of maps, charts and pictures, also two British film strips for the Ganges School. Miss E. Beddis gave an account of the Royal visit to Vancouver and Nanaimo which she attended as a standard bearer. Mrs. Bishop Wilson was tea hostess.

Report—Pat Garrard reported on the B.C. convention of hospitals and auxiliaries at recent meeting of Solarium Junior League. Convener of the rummage sale, Hazel Brundsen, reported net proceeds of \$104.56. Mary Rawnsley was named convener of the annual Snowball Frolic on Boxing Day in the Empress Hotel ballroom. Dance will be cabaret style.

Elections—Rev. H. Bolton presided at election of officers of 'Sooke' Women's Auxiliary to M.S.C.C. of Holy Trinity Church held at the home of Mrs. Hugh Piggott. Mrs. E. G. Hooper is

president; Mrs. E. L. Nixon, vice-president; Mrs. Hugh Piggott, secretary; Miss D. Mitchell, extra cents; Mrs. W. C. Brooks, Living Message; Mrs. Hooper, Junior W.A. work; Mrs. Nixon, Little Helpers; Mrs. F. L. Paddon, prayer-partner. Mrs. Emily Nixon reported on the year's work. Delegates to the annual meeting are Mrs. Paddon and Mrs. Piggott with Mrs. W. J. Cains and Mrs. Brooks as alternates. A Christmas bazaar is planned the first week in December.

For Christmas—At a meeting of Esquimalt Community Club it was decided to hold a Christmas party for members and children on Dec. 22. Mrs. R. McVie presided.

Realize \$86—At a tea and shower for child and family welfare given by Gonzales Chapter, I.O.D.E. \$86 and a quantity of children's clothing was received. Mrs. A. Christolm, regent, presided at a recent meeting and it was announced that \$10 had been donated to sea cadets; \$5 for work in India. Four food

parcels have gone to England and flowers were taken to Veterans' Hospital. Two families will be adopted for Christmas cheer and calendars for all classrooms will be sent to Monterey and Happy Valley schools. Sewing meeting will be Tuesday at 2.

TODAY'S RECIPE

VEGETABLE CHOWDER

One cup white beans, 3 cups cold water, 1 cup sliced raw carrots, 1 cup diced raw potatoes, 1 cup canned peas, 2 cups canned tomatoes, 1 teaspoon salt, 1 teaspoon celery salt, 1/2 teaspoon pepper, 1 cup milk.

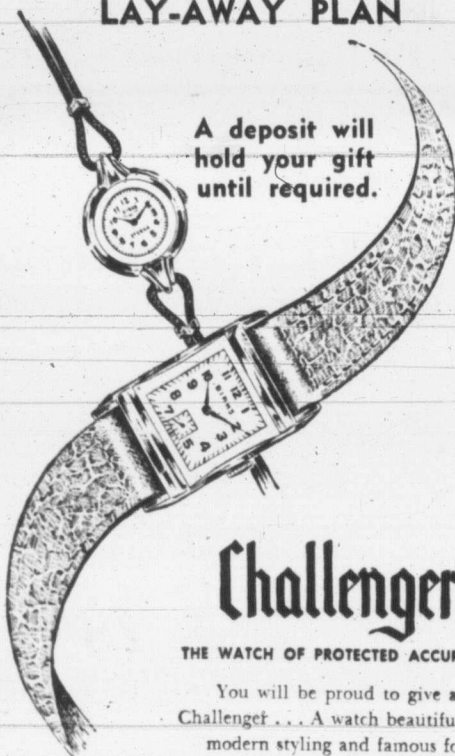

Soak beans overnight in cold water. Cook for 1 1/2 hours or until tender. Add vegetables and seasonings. Cook 1/2 hour; add milk and reheat. Six servings.

Luxton and Happy Valley Women's Institute, Tuesday, at Luxton Hall. Roll call to be answered with pot holders and needlework.

World Countrywomen To Meet In Canada

TORONTO, Nov. 8 (CP).—The Associated Countrywomen of the World will meet in Toronto in August, 1953, it was announced at the Central Area Women's Institutes' annual meeting yesterday.

Mrs. Hugh Summers, national

W.I. president, said the meeting will be the first held by the international body in Canada. Some 800 delegates are expected from 24 countries.

Mrs. R. G. Purcell of Fort William, provincial W.I. president, announced that the Ontario fed-

eration will have its first booth at the Royal Winter Fair this year.

She said the Ontario federation is planning to send a tractor to Greece to aid in reconstruction of the village of Mesovouno where houses were razed and all the men killed. Women and children are attempting to re-establish farms.

We're Christmas Shopping NOW!

"We found something for everybody on our Christmas list in Simpson's catalogue.... 'Course, I'm not supposed to know, but Aunt Mary is getting a dress... my brother the bicycle he's always wanted... Dad a bathrobe... Mom a new coat, and there's perfume for Aunt Martha... I'm getting something real special too!"

Escape the hustle and bustle of Christmas shopping.... Shop the easy, convenient, Simpson Catalogue way... Gather in the pleasant family circle of your own home, and fingertip through hundreds of pages of ideas for Christmas gifts. Make your selection.... unhurriedly and economically.

In Simpson's catalogue, everything is simply and accurately described. Illustrations are life-like, true in color and detail. Use Simpson's revolving credit or monthly payment plan. Telephone your Christmas orders or visit Simpson's local mail order office.

This year, Christmas shopping can be a pleasure when you shop the Simpson's Catalogue way. For Christmas Catalogue, write Simpson's or visit your local order office.

JAMES NESBITT, SPEAKER

Beta Sigma Phi Sorority Marks Tenth Birthday Banquet, At The Monterey

The personality that was Emily Carr, with some of her dreams, disappointments and successes, was presented to members of Beta Sigma Phi Sorority yesterday evening in the Century Room at the Monterey by guest speaker, James Nesbitt.

Occasion was the fall banquet, also marking 10th anniversary of the founding of the sorority in Victoria. Chapters taking part were Xi Beta, Zeta, Xi Omicron and Alpha Zeta.

OF PERSONAL INTEREST

Guest Speaker Honored

Special guests at a tea held yesterday afternoon in the Empress Hotel by the Women's Canadian Club to honor their guest speaker, Gen. C. A. P. Murison, C.B.E., M.C., were Mrs. C. A. P. Murison, Miss K. Agnew, and Mrs. Alan Campbell. Others present were Mrs. W. H. Wilson, Mrs. E. S. Farr, Mrs. E. Crumley, Mrs. P. T. Fairley, Mrs. J. L. Mulhead, Mrs. E. E. Livesey, Mrs. R. T. Wallace, and Mrs. J. M. Ewing.

Party For Frances Crossley

A miniature house concealed gifts at a miscellaneous shower for Miss Frances Crossley held by Mrs. L. Pearce and her daughter, Miss Isabel Pearce at their home on Harriet Road. Corsages of chrysanthemums were presented to the bride-elect, her mother, Mrs. W. Crossley, and grandmother, Mrs. J. Billington. A bride's cake centred the buffet supper table. Other guests were Mesdames R. Gillis, W. Rogers, E. Crossley, G. Wells and Misses Sylvia Fisher, Vivina Pederson, Emilene Higgins, Jeannette Christian, Louise Crossley, Mary Murphy, Jocelyn Luchinsky, Roberta White, Diana Coles, Deanna Saxon, Joyce Myhr and Rene Fisher.

Mrs. Vera Watts Powell is entertaining at an early evening cocktail party tonight at her home on Denison Road.

Mrs. Alistair Fraser, with her son, Alistair, Montreal, is now in Seattle after spending several days with Dr. and Mrs. W. G. Wilson, Pemberton Road.

Miss Daphne Collison will entertain a few of her friends at a tea this week-end at the home of her parents, Mr. and Mrs. R. N. Collison, King George Terrace.

Members of the British Sports Touring Club took a trip recently to Deep Cove and were guests at a Devonshire cream tea at The Chalet.

Miss Barbara J. Hobbs is coming from the mainland this week-end to visit her parents, Mr. and Mrs. J. L. Hobbs, "Woolston," Cadboro Bay.

Mr. and Mrs. Angus McKay, Olympia Avenue, will have their daughter, Miss Bunty McKay, Vancouver, with them this week-end.

Mrs. H. E. Beck, St. Patrick Street, will have her son and daughter-in-law, Mr. and Mrs. Tony Beck, Vancouver, as her guests this week-end.

Mr. and Mrs. W. J. V. Church, Oliver Street, are going to Vancouver this week-end to visit their son and daughter-in-law, Mr. and Mrs. John Spencer Church.

Miss Ada Burt entertained at a shower recently to honor Miss Barbara Metz. A flower basket containing many gifts was presented to the guest of honor by Master Stephen Lewis Williams. She also received a corsage of red and white carnations. Her mother, Mrs. L. Metz, was presented with a corsage. Russel and yellow-toned chrysanthemums centred the lace-covered table which was decorated with green candles in silver holders. Guests included Mesdames L. Metz, J. McCoulland, V. Burt, A. Reihan, O. Dyson, N. Lynn, F. Knox, T. Cooper, G. Bone, J. Gallant, J. Gordon, E. Jackson, and Misses A. Carlos and E. Cooper.

Mrs. Edith Vine shows Victorians the "easy" art of wrapping gifts.

Seattle Woman's Nimble Fingers Create New Ideas

An ordinary strip of wrapping paper, a roll of ribbon, a little thought and dexterous fingers are turning out "dream" packages for Christmas at a local department store.

Mrs. Edith Vine, Seattle, is in the city for a couple of days and is giving free lectures on the easy art of attractive gift wrapping.

In speaking to her audience she stresses, "I am not using any tricks or special props. Everything done is absolutely within your ability."

No doubt it would take a little practice to create the effect that Mrs. Vine achieves, but it certainly opens your eyes to what can be done with a plain square box and common wrappings.

Why, a loop here, a twist there, and you'll gasp in amazement at your own accomplishments.

Mrs. Vine is far from a novice at this art.

She has a gift-wrapping shop of her own in Seattle and has practiced this art for 20 years. She also specializes in greeting cards in her shop.

Seattleites have no need to worry about making their gifts attractive. They just take them in to Mrs. Vine and her nimble fingers whip them into breath-taking creations.

As busy as this keeps her, she also manages to give lectures at the University of Washington.

While presenting helpful hints to Victorians, she pointed out that it is only necessary to use the thumb and forefinger when placing the paper over a box or tying the ribbons.

"So many people think they haven't enough fingers to cope with this job. That's where all the trouble starts," she said. "They get so many fingers working they end up with a hopeless confusion of knots and crinkled paper."

Mrs. Vine showed artistic ingenuity in her choice of materials.

She took imitation leaves and berries, combined them with blending ribbon and paper and produced a parcel anyone would have been proud to give and overjoyed to receive. She did the same with bells, sprays and other ornaments.

With such tips on artistic gift wrapping it should be a joy to do instead of a chore.

Canadians Need An Independent Outlook Sense Of History, Regard For Future

Returning to Canada after an absence of 34 years, Gen. C. A. P. Murison, C.B.E., M.C., discovers that one of his most vivid impressions of his native land is "a seeming want of appreciation among Canadians of Canada's new standing among nations."

"We are generally conscious that we have become an important people in an economic sense," he told Women's Canadian Club, yesterday afternoon in the Empress Hotel, "but outside certain fairly restricted circles, seem but dimly aware that we have also become an important people in a political sense."

The speaker felt that one great reason for this was the fact that "the great mass of us have, perhaps unconsciously acquired the habit of importing our ideas and opinions along with refrigerators and TV sets."

"Because our national periodicals are therefore under-subscribed, it seems to me that an additional responsibility should be assumed by local papers. They have nothing to fear from American competition and have, therefore, a great opportunity of playing a leading part in developing the Canadian point of view."

With this lack of independence of outlook, Gen. Murison coupled the fact that "we seem to attach too little importance to our history, our traditions, our national day."

"Little is made of Dominion Day except to exhort motorists not to drown or run over someone," he said.

The general, who retired and returned to Canada recently after overseas service said he was prepared for the tremendous strides in industry but not for the ruthless exploitation he witnessed. He referred to "fished-out rivers, logging wastes and ghost towns."

"Conservation," he warned, "will not be done in time unless public opinion forces the issue."

He cited the fight for preservation of Strathcona Park as an example of an aroused public opinion and added that the increased use of the sustained yield and forest management licenses were favorable signs in British Columbia.

"We are fond of referring to our limitless resources," said Gen. Murison, "but we should remember the United States once did the same and is now realizing the necessity for conservation."

Gen. Murison, who saw many years army service in the Middle East, warned that exploitation by the Arabs had turned North Africa, once the granary of the Roman Empire, into a desert.

"Here in America," he said, "the plow and the axe are doing the same thing."

Mrs. W. H. Wilson, club president, introduced Gen. Murison and Mrs. Alan Campbell thanked him for his speech.

CAMAY brings your skin

Out of the Shadows

and your True Loveliness comes to light!

This Camay Bride knows! You'll have a Fresher, Clearer Skin with your First Cake of Camay!

For your complexion and bath, there's no finer beauty soap than Camay! Camay is really mild. And it gives such a rich, creamy, fragrant lather. Take your skin "out of the shadows" and into the light of romantic new loveliness with Camay, the Soap of Beautiful Women.

EVERY GIRL LIKES TO BE POPULAR. Every girl wants to win compliments, attention, romance. So why let a veil of dullness mar your complexion and act as a hazard to your hopes?

Why let your beauty linger "in the shadows"? With Camay, you can take your skin "out of the shadows" and into the light of new loveliness.

No shadows dim the complexion of this Camay Bride—Mrs. Manley Judson Goodspeed, Jr. "A change to regular care with Camay brought me a clearer skin in next to no time," she confides.

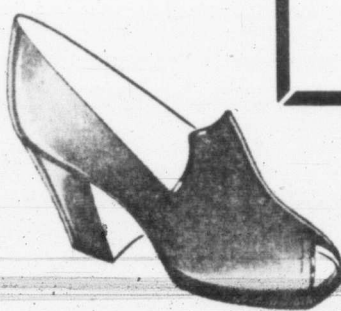

Camay helps bring new beauty so quickly! Change to regular care and your very first cake of Camay will bring a clearer, smoother skin.

HUNT AMATEUR TALENT

Travelers To Promote Shows To Aid Solarium

A series of amateur talent shows to benefit the Solarium Fund will be staged at the Club Sirocco by the Victoria Club, Associated Canadian Travelers, beginning Monday night, Nov. 19, it was announced today.

Norm Bailes, chairman of the club's talent show committee, said the shows will run for 21 weeks, with a wind-up show April 22 for "jackpot" cash prizes. First and second cash prizes will be awarded at the regular weekly shows, to start at 8 o'clock and last for about two hours. All shows will be held on Monday nights, with CKDA broadcasting

them, beginning at 9:05 o'clock, Bailes said.

Roger P. O'Connell is president of the Victoria Club of A.C.T., an organization of commercial travelers which has also raised large sums on behalf of worthwhile causes in Manitoba, Saskatchewan and Alberta.

Russ Potter of Club Sirocco has begun the task of auditioning talent. Southern Vancouver Island artists will be sought for the programs.

TOURIST TAGS

WELLINGTON, N.Z. (CP)—Visitors to New Zealand in future will be marked men and women. The government tourist department has issued a sticker with a picture of a Kiwi—the national bird—to be put on baggage. The label also bears the words, "Visitor to New Zealand."

Market Climbs After Week Of Unsteadiness

NEW YORK (AP)—Air lines started the ball rolling for a general advance today in the stock market.

Once the forward movement got under way, it quickly included all major divisions of the market.

Gain extended to between two and three points among leading issues of significance.

Volume came to an estimated 1,500,000 shares, around the best levels of the week.

The most substantial progress was made in oils, coppers, rubbers, steels, motors, rails, chemicals, aircrafts, farm implements and radio-television.

Canadian issues were higher. Hiram Walker and International Nickel both advanced 1/4. Canadian Pacific was up 1/8. Dominion Mines added 1/8 and McIntyre gained 1/8. Distillers Seagram was unchanged.

Oils Show Gains

VANCOUVER—Active trading made Vancouver prices firmer today. Some sizeable gains were recorded.

Canadian Atlantic jumped 50 cents to go to \$7.80. Anglo-Canadian was up 40 cents, at \$8.20. Pacific Petroleum up 25 cents at \$12.75.

Brilliantly up 15 cents at \$5.85. Calmont gained 8 cents. Del Rio and Charter, five.

Reeves McDonald attracted interest among miners, climbing 25 cents, at \$6.50. Estella was up 14 cents, International Coal 14 cents. Western Uranium 5 cents and Silvan 5 cents.

Canadian Western Lumber jumped \$1, to stand at \$12.

Steels, Papers Up

MONTREAL (CP)—Prices continued stronger near the close today on the Montreal exchange.

Gains outnumbered losses almost five to one from the opening, with some of the stronger leaders showing advances of a point and more.

Senior metals, steels and papers displayed a wide list of gains. Utilities and senior oils firmed fractions, while carriers and miscellaneous industrials were irregularly higher.

Beverages mixed plus and minus signs. Banks were dull and a trade trifle easier.

Miners and western oils were firmer in a penny range. Bob's Lake, Celta and Nocana were a few cents higher in active dealings. Admiral in western oils was also firmer under a heavy turnover.

Broad Advances

TORONTO (CP)—Steady support today toward the session's close pushed stock market prices slowly higher.

Agricultures, papers, refining oils and manufacturing companies showed a broad list of advances to form the market's strongest sections. Steels, banks and a miscellany of industrials drew firm support while construction, liquors and textiles held gains and losses in balance. Utilities, foods and retail stores weakened.

Western oils held early gains. Anglo-Canadian, Canadian Atlantic, Canadian Collieries, Del Rio, Federated Petroleum, Model Oil, Canada Southern Oil, Security Free, Selburn and Trans Empire posted gains to about 40 cents.

In base metals, Consolidated Smelters jumped more than a point while Hudson Bay, International Nickel, Noranda and Quemet added fractions. Barve, Estella, Golden Manitou, Labrador, Mindamar, Quebec Manitou and United Asbestos climbed pennies.

Senior goods strengthened. Giant Yellowknife, Kerr Addison, Lake Shore, Lamaque and McIntyre posted advances to 50 cents. Tack Hughes and Wright-Hargreaves eased. Secondary issues developed little trend.

Trade German Bonds

LONDON (Reuters)—The stock exchanges ended the week quietly, retaining much of the previous day's caution.

British government funds moved within narrow limits but the tendency in industrials was downwards, particularly the textiles and rayons. These were depressed by increases in the U.S. and U.K. prices of cotton.

The foreign section was enlivened by the resumption of dealings in German government loans. These had been suspended earlier in the week pending modification of the official plan for the distribution of German enemy assets. Final levels were slightly above those ruling at the time of the suspension.

Elsewhere, oils inclined lower and there was dullness in this following the cessation of American stockpiling of tin.

\$ Exchange

MONTREAL (CP)—Market rate for U.S. funds as reported by Bank of Canada at noon was \$1.04 15/32. Thursday's noon rate was \$1.04 5/16. Pound sterling was \$2.92 1/2, against \$2.92 1/16 Thursday.

NEW YORK (CP)—Canadian dollar was down 3/16 of a cent at a discount of 45/16 per cent in terms of U.S. funds in noon dealings. The pound sterling was unchanged at \$2.80 1/2.

Phillips Makes Most Northerly Alberta Strike

By C. V. MYERS

Phillips Petroleum of the United States has made the most northerly discovery to date in Alberta. Their Phil-Can No. 1750 miles north and west of Whitecourt, tested 3,640-60, flowed gas in four minutes at the rate of 1,100,000 cubic feet a day. Pipe recovery was 55 feet of oil and gas cut mud.

Phillips officials said they believed the zone was triassic. Nearest independents are Pacific and associates who hold 40,000 acres about eight miles to the northwest.

Phillips also announced a new B.C. test, Phillips Tenaka No. 1, about 150 miles northwest of Pacific's oil strike, and about 40 miles south and west of Fort Nelson near the Northwest Territories border.

Twenty miles northeast of Phil-Can No. 1, B.A. Cities Service Notkewin No. 1 is drilling below 5,000 feet.

Champion Pipe Line Corporation

will present its application to the Federal Board of Transport Commissioners—Dec. 10—at Ottawa for its proposed oil pipeline from Edmonton to the Pacific Northwest. Champion's route would extend from Edmonton south through Calgary to Pincher Creek and then west via an all-Canadian route to Vancouver, through the Crow's Nest Pass, included on Champion's route westward would be the B.C. towns of Fernie, Cranbrook, Creston, Trail, Rossland, Princeton, Hope, Chilliwack, Abbotsford and other smaller towns.

Two other companies proposing oil lines to the Pacific Northwest are Westcoast Transmission, backed by Pacific Petroleum, which also plans a gas line from the Peace River area to the coast, and Trans Mountain, backed by the British Columbia, Westcoast's route would take the oil from the Edmonton area, westward through the Pine or Yellowhead Pass, and then in a southerly direction through the interior of B.C., joining the gas line near Kamloops. Trans Mountain, whose shareholders include Imperial Oil, Socony Vacuum and Gulf, would follow a similar route through the Yellowhead Pass. Trans Mountain's hearing before the Board of Transport Commissioners is slated for Nov. 26.

GOVERNMENT LIQUOR ACT

Section 28
NOTICE OF APPLICATION FOR CONSENT TO TRANSFER BEER LICENCE

Notice is hereby given that on the 15th day of November, 1951, the undersigned intends to apply to the Liquor Control Board for consent to transfer of Beer Licence No. 4208 issued in respect of premises being part of a building known as Bookie Hotel, situated at Mill's Landing, British Columbia, upon the plans described as Lot No. One (1), Sec. 10, Seventy-Three (73), Block District, Plan 4390 and Parcel "B" of Section Seventy-Three (73), Block District, Victoria Land Registration District, in the Province of British Columbia, from Robert Gregory Hunter and Sophia Hunter to James G. G. and Margaret G. G. both of 214 Cook Street, in the City of Victoria, in the Province of British Columbia.

Dated at Victoria, British Columbia, this 16th day of October, 1951.

JAMES G. G. MARGARET G. G. Applicants and Transferees.

Canadian Newspapers Win Praise

MONTREAL, Nov. 9 (CP).—Canadian newspapers "have done a really wonderful job" in coverage of the Royal tour, William Dunstan, general manager of the Melbourne Herald in Australia, said Thursday.

He has been in Canada negotiating for newspaper on behalf of the Australian newspaper industry.

"I can't tell you whether I have been successful or not regarding newspaper," he said.

"But I must say that Canadian newspapers' reporting of the Royal tour has been a magnificent and exciting recording of the upsurge of patriotism. It should serve, I think, as a pattern against the time when we Australians hope to see Princess Elizabeth and Prince Philip next year."

High Living Costs Preoccupy Liberals

VANCOUVER, Nov. 9 (CP).—Cost-of-living problems are expected to get top billing during the three-day convention here of the Young Liberal Federation.

The convention opened Thursday, but some of the 250 delegates from Canada's ten provinces were late in arriving due to storms in the east.

Meanwhile, James J. Proudfoot, Victoria's city prosecutor, is reported to be in the running for the presidency of the organization. If he is elected, it will precede in that a host province never before has elected its own president.

Veteran Union Man Relinquishing Post

John Martin tendered his resignation Wednesday night as archivist of the Victoria and District Trades and Labor Council.

Martin, who first sat on the council 41 years ago, indicated he might not be reappointed to the council when his union, Victoria Shipyard Workers, Local 238, holds elections later in the month. He urged the work of collecting documents and papers relating to the council's long history continue.

Appointment of a new archivist was left in the hands of the council's executive.

Communist Views Offered Public

A fall and winter series of public lectures designed to present the Communist viewpoint was announced today by the Victoria Committee of the Labor-Progressive Party.

The lectures will be held in the Williams Building, 749 Broughton, and will be followed by discussion.

First lecture is Thursday, Nov. 16, at 8, and will be given by Alfred Dewhurst, provincial L.P.P. organizer, on the topic "Communism and Canadians."

Dorohoy Tops Team Scoring

In spite of the fact that he is alternating between two forward lines, Eddie Dorohoy continues to reign as the top scoring member of Victoria Cougars.

Centering the remaining two-thirds of the kid-line while regular pivotman Reg Abbott recovers from his shoulder injury, Dorohoy picked up two assists against Vancouver Tuesday to boost his point total to 21 on eight goals and 13 assists.

The biggest advance was made by Andy Heberton who picked up four goals in two nights to jump to third place with 13 points. Line-mate Bob Frampton is second with 14.

Cougars' scorers follow:

	G	A	Pts
Dorohoy	8	17	25
Frampton	7	14	21
Heberton	4	13	17
Joensen	4	12	16
Anderson	4	10	14
McIntyre	3	9	12
Medrakal	3	8	11
Strougan	3	7	9
Evans	3	7	9

Next games, tomorrow: Chicago at Montreal; Detroit at Toronto.

Change Of Name

VANCOUVER (CP).—The Salmon Cannery's Operating Committee has become the Fisheries Association of B.C.

Change of name, announced Thursday, will denote more clearly the comprehensive nature of the organization's activities and the operations in which its members are engaged. The association represents all branches of fisheries management, not only that of salmon canning. Member companies constitute about 95 per cent of the operators in the B.C. fishing industry.

Miss Laura Maynard Knew Thousands Here By Sight

Miss Laura Lillian Maynard, 78, who retired two years ago after 45 years spent at the stamp-vending wicket of the city post office, died today at her home, 1038 Queens.

Born in Victoria, eldest daughter of George H. Maynard, she "happened into" her post-office job.

"When I went there it was just for a few months," she said on her retirement, "then I stayed 45 years."

She used to say that the early days were a "Christmas rush" the year around, but that later years were a little easier. During her career she became well known to thousands, and knew thousands—especially the long-time residents—by sight.

Surviving are two brothers, William J. in Victoria, and George H. Mayne Island, and a sister, Mrs. Rose E. Macdonald, Victoria. Another brother, Albert J. (Hui) Maynard, died Oct. 5 this year.

Funeral arrangements will be announced by Sands.

Hunter Remanded In Fatal Shooting Case At Duncan

(Special To The Times)
DUNCAN.—Charged with manslaughter as a result of a hunting death, E. W. H. Crouter was remanded Thursday before Stipendiary Magistrate G. A. Tisdall here.

Defense counsel David Williams asked the hearing be set for Nov. 16.

Charge arose out of the death of Howard Eckhart, hunting companion of Crouter, on Oct. 1. A coroner's jury brought in a verdict of non-culpable homicide. Bail continues at \$3,000.

BEDTIME STORY

by Thornton W. Burgess

What was the matter with mother? This is what the two handsome young deer following Mrs. Lightfoot around in the Green Forest wanted to know.

They were big enough to feel quite grown up, although they had yet to live through their first winter.

Also, they were still quite satisfied to go where mother led the way and to do just what she did. They didn't know it, but in this way they were learning important things.

Lately mother had been wandering about this way and that, and father had been tagging along—part of the time anyway. Mother seemed anxious. She seemed to be looking for something. Finally, one of the twins asked her if she was looking for something.

"Yes, my dear," replied Mrs. Lightfoot. "I'm looking for a place for us to spend the winter."

"I want a place that, first of all, has plenty of food within reach of you children," said Mrs. Lightfoot.

"We've seen lots of places with plenty of food within reach," said one of the twins.

"His mother took no notice of this. 'And I want a place where the trees grow close enough to give us protection in bad weather,' she said.

"It seems to me we've seen a lot of places like that," said the other twin.

"So we have, my dear, so we have," replied his mother. "There are plenty of places where we can lie snug and protected from rough Brother North Wind when he brings snow and sleet."

"What are those?" asked the other twin.

"You'll find out in time," said his mother. "It is true that we have found plenty of sheltered places. The trouble with most of them has been that they are not safe."

"Why aren't they safe?" chorused the twins.

"Because they are where one of our hungry enemies might be likely to look for us, and that would never do," explained mother.

Late that afternoon they came to a place that Lightfoot, who had been tagging along, didn't approve of at all.

"This is where we will make our yard this winter," declared Mrs. Lightfoot. And Lightfoot and the twins knew by the way she said it, that that was just where it would be.

They were big enough to feel quite grown up, although they had yet to live through their first winter.

NEWS BRIEFS

KILLER—In Eagle Rock, Calif., a few minutes after a young mother screamed that she had killed her baby, police Wednesday found the body of a four-month-old, John Lawrence Walton, in the bathtub of the family home.

Mrs. Arline Fay Walton, 26, came out of the surf at Santa Monica and screamed to him: "I want to kill myself. I just killed my baby."

"Taken to a police station, she said she had tried to stab the baby, then had drowned him in the tub."

INDEPENDENT—In Boston the wife of a Northeastern University professor who said her husband read a complete detective story at a symphony concert and danced the polka when the orchestra was playing a waltz was granted a divorce Wednesday. The grounds: mental cruelty.

Mrs. Constance R. Blois, 35, said the conduct of Raymond E. Blois, 38, constantly embarrassed her.

AGGRESSOR—In Colorado Springs, Screen Actor Robert Mithum admitted today that "I was the aggressor" in a barroom brawl with an army private that got so violent they smashed a table and knocked over a piano.

Mithum emerged from the fight unscathed. But Pvt. Bernard Reynolds, 27, an ex-boxer and member of the Camp Carson, Colo., football team, sported a bruise over his left eye.

"I was the aggressor," Mithum said after the brawl, "but I was aggressive like a policeman."

He also admitted that "I was the boss all the way" in the fight.

ENCORE—In Spokane a young mother whose first child was born in a police car in Dayton, O., gave birth Wednesday to her second child at the head of a hotel stairway here.

Emergency hospital attendants arrived too late. But Mrs. Sally Ann Desparios, 23, and her infant son were reported "just fine" in a local hospital.

BABY-SELLING 'Large-Scale'

MONTREAL, Nov. 9 (Friday) (CP)—The Gazette in a newspaper story today quotes a police official as saying a "large-scale racket of selling illegitimate children to childless United States couples is operating in almost every big city across Canada."

The story adds that police said the racket has been going on for years in Montreal on a larger scale—but similar to other cities in Canada.

BEDTIME STORY—In Boston the wife of a Northeastern University professor who said her husband read a complete detective story at a symphony concert and danced the polka when the orchestra was playing a waltz was granted a divorce Wednesday. The grounds: mental cruelty.

Mrs. Constance R. Blois, 35, said the conduct of Raymond E. Blois, 38, constantly embarrassed her.

First For Fluorine, Vancouver Aim

Vancouver is ahead of Victoria in taking action to have a new chemical, fluorine, added to its water supply to prevent tooth decay among adults and children, it was learned today from health authorities here.

Medical, dental societies and health authorities in the mainland city have approved the use of the chemical as a health measure and are expected soon to request the Vancouver Water Board to fluoridate the communal water supply, health officials disclosed.

Vancouver's application would subsequently be submitted to the provincial health department for approval.

If Vancouver goes ahead with its plans, it will be the first city in the province to fluoridate its water supply. Several other cities in other parts of Canada and the United States are already using the chemical.

Vancouver took the lead in advocating the practice after the American Dental Association and the United States Public Health Service approved fluoridation.

Meanwhile, in Victoria, health officials who are in favor of trying out the scheme immediately here are running up against opposition from some members of the Victoria Dental Society.

The dentists don't want to try

fluoridation here until experiments which have been going on in Brantford, Ont., for the past six years, are completed. These experiments will be completed in another four years.

"I don't know why we should wait," said one health official. "Leading authorities in this field are agreed that the efficiency of this method is proven."

The Brantford experiments will only "give us a lot of figures," he added. "In centres where fluorine is used in water supplies, it has been proven that tooth decay is on the decline."

Given Wage Boosts

Wage increases for janitors and elevator operators employed in the Campbell Building have been won by the Building Service Employees' Union in negotiations with Royal Trust Company, agent for the office building.

The new agreement was completed Wednesday.

Janitors, under the new terms, will receive an additional 15 cents an hour.

Victoria Daily Times FRIDAY, NOV. 9, 1951 23

COMMODORE ADAMS LEAVES CABIN WHEN GIFT TURTLE TAKES OVER

A belated birthday present was delivered in a unique way to Commodore K. F. Adams when he was commanding the Magnificent during the Mediterranean cruise. The men of H.M.C.S. Miamee, having captured a huge turtle, equipped it with a brilliant red tie, stuck a cigarette in its jaws and sent it by bos'n's chair to the "Maggie." Acknowledging the gift the commodore said: "The thing is walking around my sea cabin and has forced me to vacate. Does a book of instructions come with it?"

VICTORIA SCHOOLS AHEAD OF TORONTO

Easterners Cannot Take Credit For New Style In Marking Children's Reports

By AILEEN CAMPBELL

Toronto may think it is revolutionizing the school report card business, but it isn't.

British Columbia school system—including Victoria, of course—got there first.

In a story from the eastern centre, Canadian Press reports that "no more will school report cards itemize students' standings in subjects."

Starting Nov. 15, report cards

Volunteers Work On Reconstruction At Sunshine Camp

Repairs to buildings at Sunshine Camp, operated at Saseenos by the Family and Children's Service, will continue this week-end.

Executive director R. Bialuski of the Community Welfare Council said today volunteers from the Victoria Carpenters' Union, and volunteer truck drivers, using materials donated by Victoria and Sooke building supplies firms, are scheduled to be on hand for pouring of the concrete foundation for a new dining hall.

Six volunteer carpenters finished building the cribbing for the concrete last week-end.

The volunteer workers took on the repair project when it became known that lack of funds presented a serious problem for the Family and Children's Service, which operates the summer camp primarily for underprivileged persons, including the blind.

for all Toronto public schools up to Grade 8 will gauge pupils' class progress by the use of three letters—O, for outstanding, S, for satisfactory, and U for unsatisfactory.

For Grades 4, 5 and 6 the letters O, G, S, U, are used... the "G" being for very good.

According to the report of the Toronto system—the card will show a child's progress in relation to his own ability. One child who gets 65 may be marked U, because he can do much better; but another pupil who gets 65 may be graded O, because he's working above his ability level.

THEY PART COMPANY

This is where the Victoria and Toronto systems part company slightly.

Says English: "All systems of marking are based to some extent on ability level. With us, ability level is taken into consideration but it is not the sole basis for marking."

"If one pupil got 100 and another 25, the pupil who got 25 would not be marked O, for outstanding, regardless of his ability level."

Toronto educators believe the new system will do a better job of reporting progress for both students and parents. Teachers will continue to mark examinations and tests and will note results in their class files.

New York Dock Strikers Returned To Work Today

NEW YORK, Nov. 9 (Friday) (AP).—The 25-day-old longshoremen's strike that has crippled the ports of New York and Boston was officially reported settled early today.

New York State Industrial Commissioner Edward Corsi, head of a fact-finding panel, announced that the striking dock workers will return to work at 1 p.m. (EST) today.

His announcement followed a four-hour closed meeting between longshoremen's representatives and the panel.

Issues in the billion-dollar wild-cat strike, that stemmed from a revolt within the International Longshoremen's Association (A.F.L.), still were to be ironed out.

The panel issued a formal statement in which it said negotiations "will now proceed in an atmosphere free from tension." John J. (Gene) Sampson, leader of the striking longshoremen, said the settlement means "approximately 25,000 men will be going back to work."

Some of the stevedores loyal to

I.L.A. president Joseph P. Ryan have continued to work. Sampson said, however, that "not more than 5,200 men went back."

Punkinhead Is Waiting For Good Boys and Girls

In EATON'S Big STORY BOOK LAND

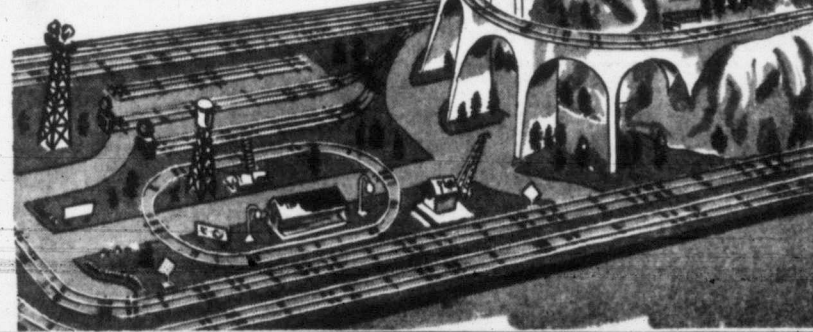

Yes, Punkinhead has learned to play the organ as a Christmas surprise for you as you step into Toyland! Humpty-Dumpty is there, too, on his famous wall . . . you'll laugh to see his big eyes roll as he sways forward and backward! Oh, and there's the "Old Lady Who Lived in the Shoe" just like in Mother Goose! With pretty little doll children playing happily around her. Be sure to take father to see the Toy Train Display . . . through tunnels, over bridges, past stations, chugging and whistling on its way! Come, Saturday, to this land of make-believe, see the Roller-coaster zip up and down, and see all the toys Santa's toted from the North Pole . . . rubber balls at 10c, plastic airplanes at 25c, dolls from 65c to 49.95 . . . even Punkinheads at 3.50, 5.95 and 10.95!
